Mid Year Self Review Guide:

Pediatric Nurse Practitioner Certification Review Guide: Primary Care JoAnne Silbert-Flagg, Elizabeth D.

Sloand, 2010-02-16 Pediatric Nurse Practitioner Certification Review Guide Primary Care has been developed especially for Pediatric Nurse Practitioners and Family Nurse Practitioners preparing to take certification examinations and as a reference in the practice setting. The text is divided into systems with an in depth coverage of growth and development and health promotion and maintenance. The common disorders of the various body systems provide succinct summaries of definitions, etiology, signs and symptoms, clinical findings, differential diagnoses, diagnostic tests, findings and management treatment. The final chapter addresses PNP role development, current trends and health policy issues including topics such as credentialing, legal issues, legislation, reimbursement and delivery systems. Following each chapter are test questions which are intended to serve as an introduction to the testing arena. In addition, a bibliography is included for those who need a more in depth discussion of the subject matter in each chapter.

Manual for the California Model School Accountability Report Card Greg Geeting, California. State Department of Education, 1989 California State Proposition 98 requires the governing boards of California school districts to prepare and issue an annual School Accountability Report Card for each elementary and high school under their jurisdiction beginning in the school year 1989-90. The report card must assess a minimum of 13 specified conditions. This manual provides technical assistance and examples of what report cards for individual schools might contain and how they might be developed. Guidelines for preparing a model report card are provided in the appendix to this manual. Although it is not limited to these areas, each report card must address the following school conditions: 1 student achievement in and progress toward meeting reading, writing, arithmetic and other academic goals; 2 progress toward reducing dropout rates; 3 estimated expenditures per student and types of services funded; 4 progress toward reducing class sizes and teaching loads; 5 assignment of teachers outside their subject areas of competence; 6 quality and currency of textbooks and other instructional materials; 7 counseling and support personnel availability; 8 substitute teacher availability; 9 safety, cleanliness and adequacy of school facilities; 10 adequacy of teacher evaluations and professional improvement opportunities; 11 classroom discipline and climate for learning; 12 teacher and staff training and curriculum improvement programs; and 13 quality of instruction and leadership.
