Math Puzzles for Middle School: Kakuro 7x7 Puzzle Collection Mike Petterson, 2019-02-13 Kakuro also known as Cross Sums is a logical puzzle, a mathematical equivalent of crosswords. The puzzle consists of a playing area of filled and empty cells similar to a crossword puzzle. Some black cells contain a diagonal slash from top left to bottom right with numbers in them called the clues. A number in the top right corner relates to an across clue and one in the bottom left a down clue. The object of a kakuro is to insert digits from 1 to 9 into the white cells to total the clue associated with it. However, no digit can be duplicated in an entry. For example, the total 6 you could have 1 and 5, 2 and 4, but not 3 and 3.

It also allows them to feel the joy that comes with working hard on something and coming up with the correct solution. Providing gentle guidance towards the correct answer when your child is uncertain shows them that you are willing to take an active role in encouraging and supporting their education.
