**Middleton Place** Charles Duell, 2012-07 An example of the elegance and grandeur of colonial architecture the aesthetic tranquility of European gardens and the quiet simplicity of centuries past Middleton Place on the outskirts of Charleston South Carolina represents a complex history of war and peace frugality and wealth and sorrow and joy in the South of lore Once a flourishing rice plantation on the Ashley River Middleton Place is now a National Historic Landmark and a popular tourist destination for those invested in Southern history culture agriculture and economics Middleton Place's main attraction remains its lavish terraced gardens and sweeping vistas of the riverfront the results of a decade of work by some one hundred slaves both aspects well documented and explored through the site's exhibits and interpreters With exquisite photography and detailed accounts this guide to the property invites readers to discover the rich legacy of Middleton Place and of those who once lived and labored on these lands First settled in the late seventeenth century Middleton Place served as the family seat to four generations of the Middleton family including Henry Middleton a member of the Continental Congress his son Arthur a signer of the Declaration of Independence Arthur's son Henry governor of South Carolina and diplomat to Russia and Henry's son Williams a signer of the Ordinance of Secession After the destruction of much of property during the Civil War Middleton Place went neglected for decades until Middleton descendant J J Pringle Smith undertook restoration efforts in 1916 This handsome guide to the property offers insights into the history and restoration of a landmark later deemed by the Garden Club of America as the most interesting and most important garden in America **Against All**

**Odds** Paul Porwoll, 2014-02-03 The tranquility of the magnificently restored Saint Andrews Parish Church surrounded by stately oaks and ancient gravestones belies a tumultuous past If its walls could talk they would tell a story as old as the human condition Founded in the forest of a new colony this simple Anglican church served planters and their slaves during the heyday of rice and indigo Before the Civil War ministry shifted to the slaves and afterward to freed men and women Following years of decline and neglect Saint Andrews rose like the phoenix The history of the oldest surviving church south of Virginia and the only remaining colonial cruciform church in South Carolina is one of wealth and poverty acclaim and anonymity slavery and freedom war and peace quarrelling and cooperation failure and achievement It is the story of a church that has refused to die against all odds Reconsidering Interpretation of Heritage Sites Anne Lindsay, 2019-08-16

Reconsidering Interpretation of Heritage Sites chronicles and problematizes the representation of the eighteenth century in museums and heritage sites while also challenging public historians to alter their perceptions of what might be possible when interpreting such sites Much of the history consumed at eighteenth century historic sites is one dimensional white male heteronormative and very focused on power and wealth Anne Lindsay argues that this narrative may be challenged through an engagement with the everyday life of the past creating thought provoking and challenging experiences that will connect with the modern visitor on a deeper level Unlike other work that has been done in the field the book provides a constructive

study that engages in a horizontal analysis of a century over a geographic region As a result Lindsay provides a unique opportunity for scholars and practitioners to reflect on the types and tone of messages usually conveyed about the eighteenth century Reconsidering Interpretation of Heritage Sites will be invaluable to scholars and practitioners working in the fields of museum and heritage studies and history It will be particularly interesting to those who want to know more about how the lived experience of the past may be interpreted at historic sites and how this could be used to engage with contentious histories
