upbeat Perseverance needs courage and conviction amidst uncertainty and often desperation Entrepreneurs are always grappling with dichotomous ideas should they trust the path they are on or change direction Creation of business is a capability that entrepreneurs learn on the job The way entrepreneurs work and think is a significant variable in the creation of a new business The hypothesis of the book is that entrepreneurship is not only about what successful entrepreneurs do who they are or whom they know but more importantly about how they do it The entrepreneurial process revealed in the interviews has universal application as a way of entrepreneurship It expands the potential of entrepreneurship Methods of working and thinking are free resources accessible to everyone Therefore everyone has the potential to be an entrepreneur Ideas and opportunities emerge from a way of thinking and doing Implementation is graduation in entrepreneurship The book is based on a collection of startup journeys of entrepreneurs The book captures the thoughts and behaviors of a pre success entrepreneur There is a difference in how these moments are experienced by entrepreneurs as they occur and read by others ex post facto
