*Marking Time with Fabric and Thread* Tommye McClure Scanlin, 2024-10-28

Unlock daily creativity with this guide for recording time by using fiber craft from renowned weaver and educator Tommye McClure Scanlin

Foreword by weaver and artist Sarah C Swett Using weaving stitching quilting or other fiber arts every day to better notice the passing of time offers you more than an arresting artwork

In fact a creative daily practice transforms your making and is likely to become one of your favorite parts of the day But time is complicated so how to begin

Renowned tapestry weaver Tommye McClure Scanlin answers that question for all makers who love working with fabric fibers and textiles Well known for her tapestry diaries she explores with you how to capture your own time in your artwork

Enables fiber crafters of any kind to start and successfully benefit from a personal daily practice Packed with practical ideas in text and photos for making a personal fiber art calendar journal or diary Dozens of prompts to ward off the largest challenge feeling creatively stuck

Stories from more than 25 makers explain the benefits of daily practice sharing inspiring photos of their finished time capsule pieces Fascinating facts and history including why we humans have the urge to mark time visually

Foreword by weaver and beloved blogger Sarah C Swett reminds us of the mix of adrenaline and power that's available to fiber crafters who truly realize that everything they make is an attempt to capture time

Praise for Marking Time with Fabric and Thread Incredibly inspiring The art practices and sentiments shared by the artists are heartfelt and will convince anyone who reads them to consider launching a personal daily practice and the value of a regular contemplative practice can't be underestimated

Jane Dunnemore author artist and founder of the Creative Strength Training community This book emphasizes to readers that threads can function as text The artists featured here demonstrate how their unique visions and memories unite with their mastery of complex structures and processes
