This book comprehensively investigates the challenges to Myanmar's access to the global market Myanmar is a late entrant in the global trade and investment scenario after years of isolation However it has large untapped potentials for trade and investment in minerals agro and forest based industries other labour intensive industries services like tourism IT etc Different chapters of the book explore the implication of democratic transition of Myanmar the progress of Myanmar's industry and infrastructure its international linkages and feasible options for integrating more in regional economic groups and also analyses how far Myanmar could exploit the global value chain Although a number of reports have discussed sector specific prospects of Myanmar this book is an authoritative work on these aspects for policy planners academicians researchers as well as potential investors **Myanmar's Digital Coup** Nicholas Coppel, Lennon Y.C. Chang, 2024-07-23 This book analyses how technologies have been used by both the military junta and resistance movement in Myanmar's digital coup to control information and the transfer of funds and to pursue accountability They have been used to pressure and mobilise external actors and the book critically assesses international responses ranging from the United Nations ASEAN individual countries activist groups donors and international businesses Contact with the military has been criticised as

recognising and legitimising the regime and individual firms have come under pressure to exit. The authors argue that the National Unity Government overestimates the significance of foreign recognition and activists overestimate the influence of international responses on military behaviour. They suggest external actors change from judging and excoriating the responses of the international community and focus on how foreign governments, businesses or organisations can support and strengthen Myanmar society. If change in Myanmar is to come, it will be those that have remained, not those that have left that will bring it about.

**The Moral Democracy** Michał Lubina, 2019-03-12

Aung San Suu Kyi spoke passionately about non-violence; she wrote involved articles about compatibility of democracy with Buddhism and she won the hearts and minds of so many with her call for the freedom from fear. It seemed for more than two decades that Suu Kyi was a perfect non-Western propagator of democracy, human rights, rule of law. Yet a deeper analysis reveals that Suu Kyi intellectually indeed has been a democrat all along, but a Burmese democrat. Suu Kyi understands democracy in a Buddhist way and she reasons about politics using Buddhist ideas, idioms and concepts. This Buddhist dominance of her political thought had several consequences, the most important one being that her approach to politics has first and foremost been a moral one; her vision of democracy and of politics in general is a moral vision. It is something I propose to call the moral democracy. The same reason that made her famous and admired worldwide now contributed to her fall from grace. For too many outside Burma, Myanmar, it is impossible to understand how Suu Kyi, yesterday's global personification of good and morality, can now silently endorse crimes against humanity conducted in her country and accept forced relocation of 700 thousand people. A cynic would quote Bertrand Russell's words: we have two kinds of morality side by side, one which we preach but do not practice, and another which we practice but seldom preach, and add a commentary that it applies especially to politicians. One, however, may offer a more favourable explanation: that Suu Kyi represents a tragic clash of ideas, including moral ideas with political reality. Whatever the case, it was morality that made her famous; it was the same moralistic attitude that contributed to her removal from international Olympus, and it is this moral understanding of politics that is the hallmark of her political thought, which is here to stay for longer as political ideas last longer than changing political circumstances and fashions.

From the Preface: The dramatic fall from grace of Burma's human rights icon Aung San Suu Kyi shocked the world. Michał Lubina's magisterial account of Aung San Suu Kyi's political education demystifies the behavior in power of this otherwise enigmatic leader. This is the indispensable book for anyone who wants to understand the mind of one of the world's most controversial women.

Prof. Salvatore Babones, University of Sydney

Dr. Michał Lubina, known in Poland for portraying Aung San Suu Kyi not as a human rights activist but as a realist politician in the very footsteps of her father, now comes out with his research to the international audience. Following the example of Mahbubani's *Can Asia Think*, Lubina shows the intellectual and philosophical tradition of Myanmar through the case study of Suu Kyi's political thought. It's a unique undertaking that presents Suu Kyi from an unexpected angle as a theoretician and political thinker or sage. Both the scope of research done

and the material presented are very impressive and rather unique even on international scene Prof Bogdan G ralczyk University of Warsaw Former Ambassador to Myanmar This book is a well documented and well constructed multilayered complex analytical work based on very rich research interviews with Suu Kyi and personal observations of the Author who displays unquestioned analytical skills As such the book represents a pioneer work in Burmese studies Prof Agnieszka Kuszewska Jagiellonian University in Cracow None of the numerous books and articles that I have read about Daw Aung San Suu Kyi dissects her political thoughts and background as thoroughly as the book written by Dr Micha Lubina He shows the political construction of her character her struggle her idealism her sources of inspiration and her weaknesses It is a necessary publication to read in order to understand historical and contemporary policymaking in today s Burma Dr Marion Sabri University of Rouen Normandy

**International Pressures, Strategic Preference, and Myanmar's China Policy since 1988** Nian Peng,2020-09-08 This book mainly explored the driving forces and evolvement of Myanmar s China policy since 1988 by adopting a neo classical realist approach an emerging theoretical paradigm aiming at analyzing state s foreign behaviour by connecting systemic and unit variables which refers to external environments and domestic restraints respectively It is the first book that seeks to give a theoretical explanation of Myanmar s diplomacy thereby bridging the gap from basic research to the deep one with theories It also introduced the concept of strategic preference and argued that the competing strategic preference that the Burmese leaders have namely integration and isolation determines Myanmar s responses to China in the Post Cold War era which not only demonstrates the neo classical realism as an useful instrument of looking into state s foreign policy and deepens the understanding on Myanmar China relations The main content of this book is divided into seven parts in which the first chapter introduces the background the present study on Myanmar s China policy and China s Myanmar policy the analytical framework and the arrangement of the content Chapter 2 focuses on the roots and changes of Myanmar s competing strategic preference as well as its influences on Myanmar s foreign policy The following four chapters examine the international pressures and benefits imposed by systemic imperatives and Burmese leaders specific strategic preference since 1988 and investigate Myanmar s policy towards China in different periods Finally it provides a comprehensive conclusion that outlines and reviews the origins and evolution of Myanmar s China policy and predicts its future directions This book is suitable for the graduates and experts who are interested in international relations the Asian studies and neo classical realism in particular and Myanmar politics and foreign relations as well as China s relation with neighboring countries

Forging the Nation SiuSue Mark, 2023 On February 1 2021 Myanmar was thrown into a state of crisis by a military coup abruptly ending a decade of civilian rule The junta imprisoned the political opposition and deployed lethal force to quell dissent thinking that most people would meekly acquiesce However they underestimated the tenacity of the nascent democracy that had taken root in the last decade Instead a civil disobedience movement quickly emerged with people going on strike across the country to prevent the junta from exerting control which was soon followed by armed struggle among urban youth *Forging the Nation* Land Struggles in Myanmar's Transition Period examines how democratic institutions were fought over and built from 2011 to 2020 through the lens of land politics This book explains how the differences in outcomes in the contest over land are situated in the specific historic and political contexts of Myanmar's states and regions despite them being subject to the same national dynamics As Myanmar is an agriculture based economy involving two thirds of the population land remains a coveted asset in the era of the global land rush referring to the intensification of capital's pursuit of land since the food price surges in 2008 2009 Thus land is also the ideal lens through which to understand the dynamics of a country that underwent a three part transition towards democracy towards peace with a national ceasefire and towards open markets after the lifting of sanctions by the West Against a fraught democratization process that unfolded from 2011 to 2020 *Forging the Nation* looks at how state and societal actors in Myanmar's multiethnic society recovering from over seven decades of civil war negotiated land politics to shape democratic land institutions By exploring the interaction of the democratic transition ethnic politics and global capital pressures on land across national regional and local scales this book provides an overarching frame that pulls together these three facets that are usually treated separately in the literature Finally by emphasizing the co constituent relationship between democratization and land politics this book makes a unique contribution to understanding the role of land in political economic transitions

**A Fool's Paradise? Ethnicity, Military and Prospects for Democratisation in Myanmar** Findley Penn-Hughes, 2014-10-08 Bachelor Thesis from the year 2013 in the subject Politics Region Far East grade 68 Durham University School of Government International Affairs course Politics language English abstract State and military power have been formally fused in Myanmar since the military coup of 1962 Colonial and pre colonial experiences prior to this had ensured the creation of a national narrative that emphasised unity and the survival of the regime above all else This led to the slow infiltration of military rule in the years following independence in 1948 and ultimately to the decades of authoritarian rule and economic mismanagement exacerbated by economic sanctions As the rest of the region began its post colonial transition towards democracy and prosperity brutal military crackdowns and reprisals following populist uprisings in 1988 and 2007 seemed only to confirm Myanmar's resilience Following the suppression of the 2007 uprising it appeared that the hold of the military junta was absolute The announcement in 2008 by the ruling State Peace and Development Council SPDC of wide ranging reforms as part of the roadmap to democracy thus

represented the greatest hope of democratic reform for half a century Following the enactment of constitutional reforms and trumpeted elections in 2010 the state now represents an ostensibly democratic constitutional system Throughout early 2011 the newly formed civilian government released over 700 political prisoners oversaw a relaxation of media censorship and legalised the right to unionisation in conjunction with a re emergence of opposition politics This essay examines how the cross over between the issues of ethnicity in Myanmar and the perceived role of the military among the military establishment as the sole protectors of the unity of the Union of Myanmar act to create political stagnation in the country By conducting the political process on their terms the military is ensuring that opposition politics is robbed of the political space with which to address the ethnic nationalities head on The NLD is now the only group that has the cultural and political capacity to do this In its continuous failure to do so it may yet plunge Myanmar into a period of political instability once again

*The problem of ethnic insurgencies and its impact on state building in Myanmar* Cornelius Streit, 2006-07-29 Seminar paper from the year 2006 in the subject Politics Region South Asia grade 2.0 Institute of Defence and Strategic Studies Nanyang Technological University Institute of Defense and Strategic Studies Singapore course Government and Politics of Southeast Asia language English abstract Since more than 40 years Myanmar is ruled by a military junta calling itself the State Peace and Development Council SPDC It is today the last military regime of its kind in Southeast Asia Due to disastrous economic policies initiated by the government Myanmar belongs to the world's Least Developed Countries LCD's the majority of its population living below poverty line Despite multiparty elections in 1990 that resulted in the main opposition party the National League for Democracy NLD winning a landslide victory the ruling junta refused to hand over power Therefore the military regime lacks the legitimacy to rule but nevertheless they do so by using force to suppress oppositional movements Myanmar is one of the ethnically most diverse countries in the world consisting of more than 100 different ethnic groups with their own history Since its independence from Britain in 1948 Myanmar has experienced numerous conflicts between the central government and ethnic minority groups seeking autonomy In this research paper the reasons for the ethnic

**The King In Exile** Sudha Shah,2012-06-14 An absorbing read Exhaustively researched and gracefully written The King in Exile tells a story of compelling human interest filled with drama pathos and tragedy It heralds the arrival of a writer of non fiction who is both uncommonly talented and exceptionally diligent One of the great merits of the book is that it is completely free of jargon and theorizing It is in essence a family story centred on five women whose lives were waylaid by history Amitav Ghosh in his blog The captivity of Burma s last king and the fall of the Konbaung dynasty a compelling new account In 1879 as the king of Burma lay dying one of his queens schemed for his forty first son Thibaw to supersede his half brothers to the throne For seven years King Thibaw and Queen Supayalat ruled from the resplendent intrigue infused Golden Palace in Mandalay where they were treated as demi gods After a war against Britain in 1885 their kingdom was lost and the family exiled to the secluded town of Ratnagiri in British occupied India Here they lived closely guarded for over thirty one years The king s four daughters received almost no education and their social interaction was restricted mainly to their staff As the princesses grew so did their hopes and frustrations Two of them fell in love with highly inappropriate men In 1916 the heartbroken king died Queen Supayalat and her daughters were permitted to return to Rangoon in 1919 In Burma the old queen regained some of her feisty spirit as visitors came by daily to pay their respects All the princesses however had to make numerous adjustments in a world they had no knowledge of The impact of the deposition and exile echoed forever in each of their lives as it did in the lives of their children Written after years of meticulous research and richly supplemented with photographs and illustrations The King in Exile is an engrossing human interest story of this forgotten but fascinating family
