A Treasury of Irish Poetry in the English Tongue Stopford Augustus Brooke, Thomas William Rolleston, 1900

The Symphonic Poem in Britain, 1850-1950 Michael Allis, Paul Watt, 2020 The *Symphonic Poem in Britain 1850-1950* aims to raise the status of the genre generally and in Britain specifically The volume reaffirms British composers' confidence in dealing with literary texts and takes advantage of the contributors' interdisciplinary expertise by situating discussions of the tone poem in Britain in a variety of historical, analytical and cultural contexts This book highlights some of the continental models that influenced British composers and identifies a range of issues related to perceptions of the genre Richard Strauss became an important figure in Britain during this time not only in terms of the clear impact of his tone poems but the debates over their value and even their ethics A focus on French orchestral music in Britain represents a welcome addition to scholarly debate and links to issues in several other chapters The historical development of the genre, the impact of compositional models, issues highlighted in critical reception as well as programming strategies all contribute to a richer understanding of the symphonic poem in Britain Works by British composers discussed in more detail include William Wallace's *Villon* 1909 Gustav Holst's *Beni Mora* 1909-10 Hubert Parry's *From Death to Life* 1914 John Ireland's *Mai Dun* 1921 and Frank Bridge's orchestral poems 1903-15 *Peasant Lore from Gaelic Ireland* Daniel Deeney, 1900 [Ireland of the Welcomes](#), 1986

A History of the Irish Novel Derek Hand, 2011-03-10 Derek Hand's *A History of the Irish Novel* is a major work of criticism on some of the greatest and most globally recognisable writers of the novel form Writers such as Laurence Sterne, James Joyce, Elizabeth Bowen, Samuel Beckett and John McGahern have demonstrated the extraordinary intellectual range, thematic complexity and stylistic innovation of Irish fiction Derek Hand provides a remarkably detailed picture of the Irish novel's emergence in the seventeenth and eighteenth centuries He shows the story of the genre is the story of Ireland's troubled relationship to modernisation The first critical synthesis of the Irish novel from the seventeenth century to the present day, this is a major book for the field and the first to thematically, theoretically and contextually chart its development It is an essential, entertaining and highly original guide to the history of the Irish novel

Twenty-five Years in the Secret Service Henri Le Caron, 1895 [The Alchemists: Inside the secret world of central bankers](#) Neil Irwin, 2013-04-04 When the first rumblings of the coming financial crisis were heard in August 2007, three men who were

never elected to public office suddenly became the most powerful men in the world They were the leaders of the world's three most important central banks Ben Bernanke of the U S Federal Reserve Mervyn King of the Bank of England and Jean Claude Trichet of the European Central Bank Over the next five years they and their fellow central bankers deployed trillions of dollars pounds and euros to try and contain the waves of panic that threatened to bring down the global financial system Neil Irwin's *The Alchemists* is both a gripping account of the most intense exercise in economic crisis management we've ever seen and an insightful examination of the role and power of the central bank It begins in Stockholm Sweden in the seventeenth century where central banking had its rocky birth and then progresses through a brisk but dazzling tutorial on how the central banker came to exert such vast influence over our world It is the story of how these figures and institutions became what they are the possessors of extraordinary power over our collective fate What they chose to do with those powers is the heart of the story Irwin tells Irwin covered the financial crisis for the Washington Post enjoying privileged access to leading central bankers and the people close to them His account based on reporting that took place in 27 cities in 11 countries is the holistic truly global story of the central bankers role in the world economy we have been missing It is a landmark reckoning with central bankers and their power with the great financial crisis of our time and with the history of the relationship between capitalism and the state Definitive revelatory and riveting *The Alchemists* shows us where money comes from and where it may well be going
