

What Parents & Carers Need to Know about ROBLOX

WHAT ARE THE RISKS?

CONTACT WITH STRANGERS

Roblox allows children to interact with other players, as well as other users. This could expose children to risks such as harassment, violence, exploitation, harassment, grooming and more. Roblox has strict rules in place to protect children from such players, with strict reporting mechanisms. Roblox also has a dedicated helpline for parents to report any concerns or incidents – which paediatricians can readily contact the children directly.

PUBLIC SERVERS

Roblox has private or VIP servers, which allow people to play exclusively with their friends, but also covers many other users. Most Roblox players will instead be on a public server, which is open to all. Roblox has strict rules in place to protect users from such players. Roblox also has a dedicated helpline for parents to report any concerns or incidents – which paediatricians can readily contact the children directly.

Roblox is one of the most popular video games on the market. By 2020, the game's makers were claiming that more than half of children in the USA play the game, which totals 50 million players. Roblox offers a huge amount of creative freedom, as lets players create their own gaming experiences with the Roblox studio to build custom levels and games, which can then be shared with other players online. Roblox fosters creative thinking and enjoys a robust online community of fans.

ONLINE DATING

Roblox has a dedicated channel "Robloxers" where users can interact with other users. An older 16+ channel called "Robloxers 18" allows users to interact with other users, which the intention is ultimately to allow users – and teenagers – to meet in person. Such users can be from all over the world, but with little or no screening of their users. Roblox has a dedicated helpline for parents to report any concerns or incidents – which paediatricians can readily contact the children directly.

IN-APP PURCHASES

Roblox is continually free to download and play, but it does have in-app purchases. These are encouraged to make purchases from other gamblers. For example, using real money, people can make their in-app purchases. Roblox has strict rules in place to prevent children from making purchases, but parents can always purchase on their children's behalf, should they choose to do so.

Advice for Parents & Carers

SET PARENTAL CONTROLS

Roblox comes with several parental control options, which can be explained with our parent's guide. This is the essential 10-step guide to help protect your child from the risks of online chat rooms. This includes parental controls, parental control features, reporting restrictions and monitoring their account.

MONITOR SPENDING

If they don't understand themselves using real money, it's easy for children to accidentally spend a ridiculous amount in the game. Using parental controls or parental features can help prevent this. Our guide to combatting real money spending makes it harder for your child to continue to spend money, because Roblox makes it.

Meet Our Expert

Chris Groom (aka "Luminary") has worked on animation and journalism in the gaming industry, specialising in providing reviews, which have been used in many different publications, including the *Guardian* and *Independent*. Groom has been writing about gaming for over 10 years, and has written for many publications, including *GamesRadar*, *IGN* and *PCGamer*.

DISABLE PRIVATE MESSAGING

Roblox's private messaging function indicates that most children being contacted by people they may not need to speak with – for example, someone they don't know. To help protect your child from such messages from complete strangers, you can disable messaging from anyone who hasn't been added as a friend on your child's account.

PRIVATE SERVERS

It's vital that these become generic knowledge for playing Roblox online with, paying for it privately or using another channel. The risk of exploitation from strangers, both from messaging and other players is a constant threat – so it's important that parents are educated in this area. It's important to teach children to be aware of the risks when messaging. Regularly observe who they are messaging and prioritising their safety.

DEALING WITH STRANGERS

As your child is their own age, your child will need to learn how to deal with strangers online. Show them how to block and report any users who are trying to contact them or are being inappropriate. It's vital that they understand that it's alright to withdraw from a stranger, and that it's safe to speak with other people online safely.
