Migration Development And Transnationalization Critical Interventions:

Migration, Development, and Transnationalization Nina Glick Schiller, Thomas Faist, 2010-11-01 The relationship between migration and development is becoming an important field of study yet the fundamentals analytical tools conceptual framework political stance are not being called into question or dialogue This volume provides a valuable alternative perspective to the current literature as the contributors explore the contradictory discourses about migration and the role these discourses play in perpetuating inequality and a global regime of militarized surveillance The assumptions surrounding the asymmetrical transfers of resources that accompany migration are deeply skewed and continue to reflect the interests of the most powerful states and the institutions that serve their interests Those who seek to address the morass of development failure vitriolic attacks on immigrants or sanguine views about migrant agency are challenged by this volume to put aside their methodological nationalism and pursue alternative pathways out of the quagmire of poverty violence and fear that is enveloping the globe

Remittances as Social Practices and Agents of Change Silke Meyer, Claudius Ströhle, 2023-08-31 This open access book explores the transformative effects of remittances Remittances are conceptualized as flows of money objects ideas traditions and symbolic capital mapping out a cross border space in which people live work and communicate with multiple belongings By doing so they effect social change both in places of origin and destination However their power to improve individual living conditions and community infrastructure mainly results from global inequality Hence we challenge the remittance mantra and go beyond the migration development nexus by revealing dependencies and frictions in remittance relations Remittances are thus scrutinized in their effects on both social cohesion and social rupture By highlighting the transformative effects of remittance in the context of conflict climate change and the postcolonial we shed light on the future of transnational society Presenting empirical case studies from Ghana Burkina Faso Sri Lanka New Zealand Turkey Lebanon USA Japan and various European countries as well as historical North America and the Habsburg Empire we explore remittance relations from a range of disciplines including anthropology sociology history design architecture governance and peace studies

Security and Development John-Andrew McNeish, Jon Harald Sande Lie, 2010-11-01 Since 9 11 ideas of security have focused in part on the development of ungovernable spaces Important debates are now being had over the nature impacts and outcomes of the numerous policy statements made by northern governments NGOs and international institutions that view the merging of security with development as both unproblematic and progressive This volume addresses this new security development nexus and investigates internal institutional logics as well as the operation of policy its dangers resistances and complicity with other local and national social processes Drawing on detailed ethnography the contributors offer new vantage points to understand the workings of multiple intersecting and conflicting power structures which whilst local are tied to non local systems and operate across time This volume is a necessary critique and extension of key themes integral to the security development nexus debate highlighting the

Becoming a Migrant Worker in Nepal Hannah Uprety, 2022-09-01 High profile events such as the 2022 FIFA World Cup in Qatar have made one thing abundantly clear Much of today s economic growth would be unthinkable without the low wage employment of migrant workers But which cultural economic and political infrastructures in the source countries make these types of migration possible in the first place Based on multi sensory ethnographic research in Nepal Hannah Uprety retraces the practices of recruitment and instruction that step by step transform Nepali labor into an internationally marketable commodity In doing so she uncovers a migration regime that effectively turns local men and women into migrant workers before they even leave the country **Urban Development in India** Pablo Shiladitya Bose, 2015-03-05 Indian diaspora has
