Mijn Weg Tot Historie:

Mijn weg tot de historie Johan Huizinga, 1947 The Works and Times of Johan Huizinga (1872-1945) Thor Rydin, 2025-10-01 The lifetime of Johan Huizinga 1872 1945 was marked by dramatic transformations in Europe Cityscapes aesthetic codes social orders political cultures international travel and means of warfare developed beyond recognition entire catalogues of hopes and fears were torn asunder and replaced by new ones during not one but two wars Amidst all these changes Huizinga grew to become one of the most famous historians of his time To this day his works are treated as monuments in the cultural historical field This book examines how these transformations and experiences of loss affected and informed Huizinga's historical perspectives Most centrally this book contends that Huizinga's historical works helped to accommodate and give meaning to his own experiences of uncertainty and rupture thus offering him a way of life in turbulent times This project offers an original and comprehensive analysis of an iconic historian writing in the age of collapse

Meaning and Representation in History Jörn Rüsen, 2006-08-01 History has always been more than just the past It involves a relationship between past and present perceived on the one hand as a temporal chain of events and on the other symbolically as an interpretation that gives meaning to these events through varying cultural orientations charging it with norms and values hopes and fears And it is memory that links the present to the past and therefore has to be seen as the most fundamental procedure of the human mind that constitutes history memory and historical thinking are the door of the human mind to experience At the same time it transforms the past into a meaningful and sense bearing part of the present and beyond It is these complex interrelationships that are the focus of the contributors to this volume among them such distinguished scholars as Paul Ricoeur Johan Galtung Eberhard Lammert and James E Young Full of profound insights into human society past and present it is a book that not only historians but also philosophers and social scientists should engage with *Rereading Huizinga* Peter Arnade, Martha Howell, Anton Lem, 2025-10-01 Rereading Huizinga Autumn of the Middle Ages a Century Later explores the legacy and historiographical impact of Johan Huizinga's 1919 masterwork a century after its publication Often considered one of the most successful books in medieval European history its reception has varied over the last hundred years popular with non academic readers and appraised more critically by fellow historians and those more generally in the field of medieval studies There is broad consensus however about the work's absolute centrality and the authors of this volume assess the Autumn of the Middle Ages reception afterlife and continued vitality *Encyclopedia of Historians and Historical Writing* Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the

development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies Biography Between Structure and Agency Volker Rolf Berghahn, Simone Lässig, 2008 Although the volume concentrates on European historiography its strong methodological and conceptual focus will be of great interest to non European historians wrestling with the old structure versus agency question in their own work
