Visualizing Nuclear Power in Japan Morris Low, 2020-05-28 This book explores how Japanese views of

nuclear power were influenced not only by Hiroshima and Nagasaki but by government business and media efforts to actively promote how it was a safe and integral part of Japan's future. The idea of atoms for peace and the importance of US-Japan relations were emphasized in exhibitions and in films. Despite the emergence of an anti-nuclear movement, the dream of civilian nuclear power and the good atom nevertheless prevailed and became more accepted. By the late 1950s a school trip to see a reactor was becoming a reality for young Japanese and major events such as the 1964 Tokyo Olympics and 1970 Osaka Expo seemed to reinforce the narrative that the Japanese people were destined for a future led by science and technology that was powered by the atom, a dream that was left in disarray after the Fukushima nuclear disaster in 2011.

Journal of Mental Imagery, 1991 Visualizing and Exhibiting Jewish Space and History Richard I. Cohen, 2012-12-20
Visualizing and Exhibiting Jewish Space and History includes a series of essays in its symposium section that treat the dramatic development of the visual arts in Jewish life from the beginning of the 20th century focusing on the proliferation of Jewish museums after the Holocaust. *EBOOK: Film Art: An Introduction* David Bordwell, 2013-08-16 Film is an art form with a language and an aesthetic all its own. Since 1979 David Bordwell and Kristin Thompson's *Film Art* has been the best-selling and most widely respected introduction to the analysis of cinema. Taking a skills-centered approach supported by examples from many periods and countries, the authors help students develop a core set of analytical skills that will enrich their understanding of any film in any genre. In-depth examples deepen students' appreciation for how creative choices by filmmakers affect what viewers experience and how they respond. *Film Art* is generously illustrated with more than 1,000 frame enlargements taken directly from completed films providing concrete illustrations of key concepts. Improvement Era, 1947 **A Writer's Diary** Fyodor Dostoevsky, 2009-03-17 The essential entries from Dostoevsky's complete *Diary* called his boldest experiment in literary form are now available in this abridged edition. It is a uniquely encyclopedic forum of fictional and nonfictional genres. *A Writer's Diary* began as a column in a literary journal but by 1876 Dostoevsky was able to bring it out as a complete monthly publication with himself as an editor, publisher, and sole contributor, suspending work on *The Brothers Karamazov* to do so. The *Diary*'s radical format was matched by the extreme range of its contents. In a single frame it incorporated an astonishing variety of material: short stories, humorous sketches, reports on sensational crimes, historical predictions, portraits of famous people, autobiographical pieces, and plans for stories, some of which were never written while others appeared later in the *Diary* itself. A range of authorial and narrative voices and stances and an elaborate scheme of allusions and cross references preserve and present Dostoevsky's conception of his work as a literary whole. Selected from the two-volume set, this abridged edition of *A Writer's Diary* appears in a single paperback volume along with a new condensed introduction by editor Gary Saul Morson. Higher Learning for Higher Activities R. L. Bishop, 2019-12-19 *Higher Learning for Higher Activities* is the story of a young man who joins the military and shortly after loses his father. His life is changed forever from this sudden loss of the greater stability his father gave him and his military career and his

marriage go down in flames Coping with life becomes more and more difficult His only solace is the freedom the road gives him and hitchhiking becomes a way of life and a search to find anything to fill the emotional vacancy in his soul One day through a series of unbelievable coincidences he finds something that holds his attention and begins a four decades long journey that eventually leads to an unveiling he never could have imagined Only in retrospect can he see the steps that brought him to a place in his life he didn't have a clue he was headed toward And when he arrived he found the difficulty in his acceptance was his own intellect His learning had been as his teacher stressed step by step and so much had to be left behind to make way for the new There were many times he thought he was a slacker but he never gave up His love of the search and his perseverance finally pay off and he learns the truth of the Law of Laws From Alien to Citizen Edward
