My Sociopath From Sociopath Parents To Loving Sociopaths To Waking Up:

My Sociopath Lynna Kivela,Lynna Kivela M a,2015-08-11 Surviving childhood raised by a diagnosed sociopath father and mentally ill mother was no easy feat for a child that leads from her heart When she turned eighteen her father called her an old loser and told her to leave home On her own this adult child navigates the world with an innate sense of her oldness in search of meaning The writer travels from the Rust Belt to the West Coast to Turkey trying to not only save herself but the animals and bad men that she attracts along the way This book highlights a sensitive child with a strong soul who grows up to be a confused woman searching for love in damaging men without ever losing track of her inner compass her Will her love for animals and her urge to keep expanding My Sociopath is the first book of its kind to give a revealing look at the making of an Empath and how this sensitive person navigates in a world of Narcissists and Sociopaths It is a flash of memoir mixed with a new and imaginative look into the deep workings of Sociopaths Narcissists and the rarely discussed Empaths This is not a victim s loss of love rant nor is it a repeat of all the old sociopath traits and checklists that we ve all been inundated with This is a well thought out innovative free thinking and spirited version of all the old sociopath books The writer is constantly analyzing human behaviors and motivations through soul needs of all players and offering fresh advice all along for bettering our existence You don t have to wait to get to the Healing Section to receive inspirational nudges along the way The author maintains that none of us are ever truly healed from trauma but instead we must focus on our expansion My Sociopath is infused with splatterings of thoughts from the ancient wisdom writers for more in depth pondering and to incite our creative flow Author Lynna Kivela goes against traditional and repeated beliefs that Narcissists lack empathy They do have empathy but not in the way we re used to seeing All new checklists are given and the author explains her own hypotheses regarding the destructive forces that walk amongst us and why some of us usually Empaths are continually absorbed by their damaging energy All of us are formed into being by what the author conceives as our mother s Emotional Body My Sociopath infuses the emotional and mental workings of all players and instead of a remote view of perpetrator victim and enabler a vulnerable expression of everyone s intense need for love and acceptance is revealed The author asserts that in order to recover from childhood abuse that results in a life of attracting dysfunction we must untangle our emotional body by examining the patterns in our life that most of us refuse to see but that we must recognize so to stop the destruction You will not only see but feel a combination of the author s essence of teacher healer creator and a person on a healing journey herself The writer turns her ideas into well organized lists and easy to read segments with headings from not only the point of being a well trained teacher but from her personal knowing that trauma victims have a hard time with concentration and focus She writes about her many days of looming gray clouds in her mind My Sociopath is a Soul Journey from Sociopath Parents to Loving Sociopaths to Waking Up

secret that we live and relate with psychopaths sociopaths and narcissists daily Unfortunately most people are yet to accept that they are trapped in toxic relationships with these people and that they should cultivate their self confidence in order to break free On the other hand a good number of people do not realize that they are in toxic relationships with psychopaths sociopaths and narcissists whose main aim is to maximally benefit from the relationships as opposed to building a life together with their partners Hence this book aims at educating people on the following and much more Psychopathic sociopathic and narcissistic character traits and the nature of their manifestation How psychopaths sociopaths and narcissists manipulate people and what a person can do to avoid falling for their trap Why it is very easy to fall for toxic people and manipulators and stick in the draining relationships oblivious to the fact that you are slowly losing your self worth self confidence and self respect You get to understand how psychopaths sociopaths and narcissists relate when in love or romantic relationships as well as understand how to know when you are being used in the name of love Above all you learn how to break free from their manipulation change the relationships and build self confidence to move on to better relationships and lead a better and worthy lifestyle With the easy to understand breakdown of character traits possessed by psychopaths sociopaths and narcissists highlighted in this book it will be easy for anyone to determine whether they are trapped in toxic relationships that hinder them from achieving self growth and confidence Note that psychopaths sociopaths and narcissists will never admit to having personality disorder problems They will always shift the blame to their partners forcing them to second guess their worth confidence and ability to achieve life goals This book offers a clear explanation of how to deal with such people at work home in general encounters and in romantic relationships to ensure that you retain sanity and peace of mind always The beauty of it all is that once you learn how to identify and deal with psychopaths sociopaths and narcissists it becomes easier to work with them and relate with them at both social and romantic levels People with these character traits will never acknowledge that they need help or that they need to change their habits yet you have to work with them and accommodate them without allowing them to put you down or manipulate you If you are placed under a supervisor with any of the traits at work do you quit your job because you cannot handle their negative personality If you realize after years of marriage that your partner possesses any of the three personalities how do you accommodate them without affecting the relationship with your children What if your family mother father or siblings This is where this book comes in hand it is the ultimate blueprint on how to spot and later deal with psychopaths sociopaths and narcissists
