CREATE USER

[Contents](#) / [Account Management](#)

Syntax

```
CREATE USER user [IDENTIFIED BY [PASSWORD] 'password']  
    [, user [IDENTIFIED BY [PASSWORD] 'password']] ...
```

The **CREATE USER** statement creates new MySQL accounts. To use it, you must have the global **CREATE USER** privilege or the **INSERT** privilege for the mysql database. For each account, **CREATE USER** creates a new row in the mysql.user table that has no privileges. An error occurs if the account already exists. Each account is named using the same format as for the **GRANT** statement; for example, 'jeffrey'@'localhost'. If you specify only the user name part of the account name, a host name part of '4' is used. For additional information about specifying account names, see [GRANT](#).
