Astrology is more than just a collection of mix and match qualities it s a language of essences One of the best and most effective ways to express these essences to clients friends or even yourself is to communicate them in story form  
MythAstrology uses the world s many myths and legends to embody the essences of all ten planets as they pass through the signs of the zodiac and become colored with that sign s nature For astrologers or just the curious this book will give you a deeper and more holistic view of your birth chart    **MythAstrology II** Raven Kaldera,2024-12-20 Astrology is a language of stories or at least of ways of being in the world which can easily blossom into stories Every way of being has at some point been brought into the world as a tale Here in the second MythAstrology book we come to the stories of the ten planets in each of their twelve houses drawn from myths and folktales from around the world Whether you are a beginning astrologer trying to understand your chart or an experienced one trying to explain someone else s chart to them in a way which will inspire them this book can help you to internalize this language of the cosmic cycles    **Gods and Planets** Eleanor Barz,1993-08-01 What happens when Mars and Venus are in love How does Jupiter defend himself against Saturn his difficult father To whom does Mercury hurry with his cap of invisibility and his winged shoes Drawing on the psychology of C G Jung Ellynor Barz looks into the foundations of astrology by recounting the myths of the planetary gods Engaging and amusing her presentation also offers new and surprising insights for both psychology and astrology When we understand the peculiarities and characteristics of the ancient gods symbolically as possibilities in our own human psyches projected in astrology onto the big screen of the night sky we discover a realm of ancient human wisdom that may exceed in subtlety most psychological models explaining the human psyche Drawing on and actualizing the many unique possibilities inherent within as described by the horoscope is a life long task All persons have the same fundamental capabilities for experience which we rediscover in these astrological symbols But the interplay of these essential forces arises in each individual in an entirely unique manner corresponding to the natal horoscope This book addresses first the astrological layperson But it also suggests a point of view seldom considered by the astrologer And for the interested psychologist a domain of knowledge and experience is revealed a wealth of material that is more deeply related to psychology than one might expect    **Understanding the Planetary Myths** Lisa Tenzin-Dolma,2005 Here is an explanation of the relationship between the gods and the myths as they relate to each other and the study of astrology This is an informative guide through the myths and legends of the Greeks and Romans explaining how the planetary influences attributed in astrology have been derived from these myths    *Planetary Gods and Planetary Orders in the Mysteries of Mithras* Roger Beck,1988
