**Science But Not Scientists** Vernon L. Grose, 2006-10 The historic Science Textbook Struggle a worldwide battle about the origin of the universe life and man erupted without warning It caught the scientific illuminati completely by surprise Why Because science textbooks had become filled with wild unbelievable stories about the beginning of everything And those tales were simply not scientific The universe starting with a Big Bang life arising out of a soup of lifeless amino acids humans produced by apes those myths had only replaced ancient Greek mythology and were being passed off as scientific truths Caught in the crossfire between educators news media textbook publishers religious notables and world renowned scientists including nineteen Nobel laureates was a private citizen Father of six schoolchildren he had only one goal to prove that science never will have answers for origins He was up against the arrogance of scientists who were determined to disguise their private beliefs as being the only explanations for the origin of the universe life and man This story concludes with a great victory for objectivity with more than 200 changes being made in textbooks over the objections of the National Academy of Sciences All discussion about origins was transformed by admission that stories about them are based solely on personal views of individual scientists Remarkably 3 000 scientists around the world later signed an affirmation to assure that this issue of belief over fact in science never be repeated Wernher von Braun father of America's space program writes in the Foreword Vernon Grose in tracing out in Science But Not Scientists his personal involvement in the vortex of these two forces illustrates one more time the humanity of scientists their likelihood of being just as prejudiced and bigoted as anyone untrained in science He properly calls for objectivity rather than scientific consensus He rightly urges that message rather than messenger should be scrutinized and tested for validity Science will be the richer and humanity the ultimate beneficiary by heeding this clarion call Creation Research Society Quarterly Creation Research Society, 1998 Creation Scientists Answer Their Critics Duane T. Gish, 1993 Discusses the arguments between creation scientists and evolutionists *Ready with an Answer* John Ankerberg, John Weldon, 1997 Nationally recognized authors and researchers John Ankerberg and John Weldon answer the top ten questions skeptics usually ask with powerful evidence for the truth of Christianity From creation to salvation to the second coming of Jesus this book explores the uniqueness of the Christian faith Readers will discover the historical scientific and religious facts and concepts that confirm God's Word and the lifesaving work of Jesus Christ **Creationism Revisited** Colin Mitchell, 1999 **Dictionary of Science and Creationism** Ronald L. Ecker, 1990-02 This user friendly reference work was written to explain the creationism evolution controversy in an easy to understand manner Using a dictionary format Ronald L Ecker outlines both sides in concise nontechnical language presenting all major scientific concepts that relate to evolutionary theory and using that information to show the pseudoscientific nature of scientific creationism Under each entry the pertinent evidence for evolution is succinctly presented as are the reasons creationist arguments in that area have no scientific validity The articles are cross referenced and indexed to improve accessibility Intended for general readers as well

as educators and professionals this authoritative volume provides all the scientific facts needed to refute the claims of creationism     **The Case for Creationism** Colin Mitchell,1994     **The Creationist Movement in Modern America** Raymond A. Yutaka Amano,Norman L. Geisler,1989 Many Christians say it is but others aren t sure what the movement is all about Before we pass judgment we need reliable information about the diverse facets of New Age beliefs and practices Authors Amano and Geisler provide this They show that New Age thought indeed influences TV movies music and books Working from a firm biblical base they critique the movement itself and also the sometimes misguided Christian responses to it     **Christian Scholar's Review** ,2007     But Is It Science?
