Nabh Manual Hand Washing

Dr.Zuber M. Shaikh

Nabh Manual Hand Washing:

NABH KPIs – The LinkedIn Way Akash Tiwari, 2025-07-03 Quality in healthcare isn't just about ticking boxes; it's about meaningful measurement that drive safe, efficient and ethical care. The NABH 6th Edition Key Performance Indicators (KPIs) offer a data-backed path to achieve just that. This book is a curated, simplified and enriched compilation of my most read LinkedIn posts, each focused on a specific NABH KPI. These were not written for auditors but for implementers: quality professionals, clinical leaders and operations heads who want to understand the 'why' behind every metric. If you want a KPI guide that speaks your language, practical, sharp and implementation-focused, this is it. **NABH EyeCare Blueprint** Akash Tiwari, 2025-07-22 This e-book, 'NABH EyeCare Blueprint' by Akash Tiwari, emphasizes the critical need for quality in Indian eye care, driven by the sector's vast scale, technological advancements and high patient volume. It introduces the National Accreditation Board for Hospitals and Care of Patients Management of Medication, Patient Rights and Education, Hospital Infection Control, and Organization Centered, e.g., Continuous Quality Improvement Responsibilities of Management, Facility Management and Safety, Human Resource Management, Information Management System. The e-book also delves into key regulatory and ethical considerations in India, including the Biomedical Waste Management Rules 2016 and the legal and ethical imperatives of informed consent, highlighting their significance for legal compliance, patient trust and professional integrity.

NABH - Common Critical Non-Conformities in Indian Hospitals Akash Tiwari, 2025-07-21 The NABH 6th Edition, effective January 2025, represents a pivotal update to India's hospital accreditation standards, aiming to advance patient safety, operational efficiency and overall healthcare quality. The 6th Edition reduces total Objective Elements (OEs) from 651 to 639 but raises Core OEs to 105, indicating a sharper focus on essential patient safety aspects. Compliance language now uses 'shall' not 'should', making previously recommended practices mandatory, increasing hospital accountability and the regulatory weight of each requirement. Newly introduced standards include Promotive Preventive Health, which expands hospitals' focus to wellness education and disease prevention, and Sustainability in Healthcare, obliging hospitals to adopt eco-friendly practices like robust waste management and energy conservation. These new areas demand significant investment in policy making, training and infrastructure, presenting particular challenges since most hospitals lack existing frameworks in these domains. Critical updates strengthen demands for transfusion, obstetric services, hospital security and cybersecurity, requiring alignment with Ministry of Health and international benchmarks. The renaming of Hospital Infection Control to Infection Prevention Control underlines a proactive strategy against healthcare-associated infections (HAIs). Historical NABH audits reveal that documentation errors account for about 70% of non-conformities, underscoring a deep, ongoing compliance problem. Common non-conformity areas prioritized by impact and frequency include Information Management System (IMS), Persistent documentation lapses and digital health cybersecurity deficiencies. Non-compliance can compromise patient safety, data privacy and organizational reputation due to legal risks or regulatory penalties. Solutions
