Unfinished Business: Democracy in Namibia Bryan M. Sims,Monica Koep,2012

Idasa s Democracy Index initially developed for South Africa is being expanded into Southern Africa in an effort to broaden the capacity of individuals and organisations monitoring and supporting democratic governance efforts in the region This inaugural Democracy Index for Namibia is intended to set a benchmark for democracy to be measured against The tool assesses the country s depth of democracy through five focus areas participation elections accountability political rights and human dignity The research relies on expert analysis to answer a set of questions that interrogate how closely in practice democracy meets the broad ideal of self representative government More specifically to what extent can citizens control elected officials and government appointees who make decisions about public affairs And how equal are citizens to one another in this accountability process The purpose of the scores is to assist citizens in making their own judgements based on the information made available to stimulate national debate and to provide democracy promoters with a tool for identifying issues and needs that can be addressed by education advocacy training institution building and policy revision

Transnational Histories of Southern Africa's Liberation Movements Jocelyn Alexander, JoAnn

McGregor, Blessing-Miles Tendi, 2020-05-21 Transnational Histories of Southern Africa's Liberation Movements offers new perspectives on southern Africa's wars of national liberation drawing on extensive oral historical and archival research. Assuming neither the primacy of nationalist loyalties as they exist today nor any single path to liberation the book unpicks any notion of a straightforward imposition of Cold War ideologies or strategic interests on liberation wars. This approach adds new dimensions to the rich literatures on the Global Cold War and on solidarity movements. The contributors trace the ways that ideas and practices were made adopted and circulated through time and space through a focus on African soldiers, politicians and diplomats. The book also asks what motivated the men and women who crossed borders to join liberation movements, how Cold War influences were acted upon, interpreted and used, and why certain moments, venues and relations took on exaggerated importance. The connections among liberation movements between them and their hosts and across an extraordinarily diverse set of external actors reveal surprising exchanges and lasting legacies that have too often been obscured by the assertion of monolithic national histories. Tracing an extraordinarily diverse set of interactions and exchanges, Transnational Histories of Southern Africa's Liberation Movements will be of great interest to scholars of Southern Africa, Transnational History, the Cold War and African Politics. The chapters were originally published as a special issue of the Journal of Southern African Studies.

Namibia Review, 2014 *War and Conflict in Africa* Paul D.

Williams, 2016-06-23 After the Cold War Africa earned the dubious distinction of being the world's most bloody continent. But how can we explain this proliferation of armed conflicts? What caused them and what were their main characteristics? And what did the world's governments do to stop them? In this fully revised and updated second edition of his popular text, Paul Williams offers an in-depth and wide-ranging assessment of more than six hundred armed conflicts which took place in Africa from 1990 to the present day, from the continental catastrophe in the Great Lakes region to the sprawling conflicts across the Sahel and the web of wars in the Horn of Africa. Taking a broad comparative approach to examine the political contexts in which these wars occurred, he explores the major patterns of organized violence, the key ingredients that provoked them and the major international responses undertaken to deliver lasting peace. Part I, Contexts, provides an overview of the most important attempts to measure the number, scale and location of Africa's armed conflicts and provides a conceptual and political sketch of the terrain of struggle upon which these wars were waged. Part II, Ingredients, analyses the role of five widely debated features of Africa's wars: the dynamics of neopatrimonial systems of governance, the construction and manipulation of ethnic identities, questions of sovereignty and self-determination, as well as the impact of natural resources and religion. Part III, Responses, discusses four major international reactions to Africa's wars: attempts to build a new

institutional architecture to help promote peace and security on the continent this architecture s two main policy instruments peacemaking initiatives and peace operations and efforts to develop the continent War and Conflict in Africa will be essential reading for all students of international peace and security studies as well as Africa s international relations
