Narrative Prosthesis Narrative Prosthesis:

Narrative Prosthesis David T. Mitchell, Sharon L. Snyder, 2000 Reveals how depictions of disability in fiction serve an essential narrative function The Trial of Supercrip (And the Conviction of Narrative Prosthesis) James Faumuina, 2023-12-31 The story you are about to read is a creative narrative depiction of the thesis provided The story of Cormac and Supercrip could be considered a character study in many of the terms and concepts from the field of Disabilities Studies The protagonist in this story has a disability however there is no emphasis on the type of disability Intentionally that detail is left out to allow anyone with a disability to play the role of Cormac The name of Cormac was chosen based on the author Cormac McCarthy His flagrant abuse of the imbecile in his work *Blood Meridian* 1 speaks to all the oppression and devaluation disabled people experience in their daily life with stigmas isolation and cruelty I found no better means to pay him back and right these wrongs by naming the title character in this disabled hero story after him Supercrip is the alter ego of Cormac He is a larger than life character with the appearance of a superhero but the ethos of a supervillain Where in many media depictions the transition from disabled to hero was seen as overcoming a disability in this story the transition from disabled to superhero normally results in chaos Cormac intentionally retains his identity at the cost of his freedom because of his principles and values system Herein lies the mark of the heroism in the form of ethical honest and a real disabled identity Numerous times Supercrip will tempt Cormac into using his superpowers to invoke justice however Cormac will continue to retain the moral compass and avoid abandoning his disabled identity The journey Cormac and Supercrip go through include reminiscing their disabled youth adolescence and eventually radical advocacy This production is minimalist with only two physical actors voices from off stage no set design with only a few tables chair cot and a few props The narration is done with the audience in order to utilize the device of breaking the fourth wall The use of the spotlight and stage lighting also plays a significant role in the pace and emphasis of the performance The use of footnotes is frequent in the script The notes are all located at the end of each respective page and quotations are mostly taken from the substantive authors in Disabilities Studies as references The story of Cormac and Supercrip test the boundaries of traditional superhero stories It introduces some essential disabilities studies vernacular and it attempts to gage the heart of the thesis by pointing out the varied opinion of what is just and what is normal ensuring that it is all viewed through the disability s lens 1 Ref Imbecille You want him you take him I ll give him to you I can t do any more than I ve done Brother of James Robert the imbecille from the book who is treated like an animal McCarthy 1985 p 268 Disability, Representation and the Body in Irish Writing Mark Mossman, 2009-08-21 Bringing together work from both disability studies and Irish studies this book argues that the idea of Ireland was constructed and developed in the long 19th century through notions of physical and cognitive difference **Queer Narrative Prosthesis** Gina M. Rereading Dis/ability in Adolescent Literature Valerie Struthers Walker, 2009 Disability & the Politics of Education Susan Lynn Gabel, Scot Danforth, 2008 *Disability and the Politics of Education An International Reader* is a rich resource that deals comprehensively with the many aspects of the complex topic of disability studies in education For nearly two decades global attention has been given to education as a human right through global initiatives such as Education for All EFA and the Salamanca Statement Yet according to UNESCO reaching the goals of EFA remains one of the most daunting challenges facing the global community Today millions of the world's disabled children cannot obtain a basic childhood education particularly in countries with limited resources Even in the wealthiest countries many disabled children and youth are educationally segregated from the nondisabled particularly if they are labeled with significant cognitive impairment International agencies such as the United Nations and the World Bank have generated funds for educational development but unfortunately these funds are administered with the assumption that west is best thereby urging developing countries to mimic educational policies in the United States and the United Kingdom in order to prove their aid worthiness This McDonaldization of education reproduces the labeling resource allocation and social dynamics long criticized in disability studies The authors in this volume explore these subjects and other complexities of disability and the politics of education In doing so they demonstrate the importance and usefulness of international perspectives and comparative approaches
