Narrative Setting And Dramatic Poetry Mnemosyne Supplements:

Narrators, Narratees, and Narratives in Ancient Greek Literature René Nünlist, Angus M. Bowie, Irene de Jong, 2017-07-31
This is the first in a series of volumes which together will provide an entirely new history of ancient Greek narrative literature. Its organization is formal rather than biographical. It traces the history of central narrative devices such as the narrator and his narratees, time focalization, characterization, description, speech, and plot. It offers not only analyses of the handling of such a device by individual authors but also a larger historical perspective on the manner in which it changes over time and is put to different uses by different authors in different genres. The first volume lays the foundation for all volumes to come, discussing the definition and boundaries of narrative and the roles of its producer, the narrator, and recipient, the narratees.

Homeric Morality Naoko Yamagata, 1994. This volume describes both divine and human behaviour in Homer through exhaustive surveys of relevant terms and episodes. It is a critical response to A. W. H. Adkins' *Merit and Responsibility* and H. Lloyd Jones' *The Justice of Zeus*.

Euripidea David Kovacs, 1994. Testimonia to the life of Euripides are printed in one place for the first time together with an English translation, making possible a critical assessment of the biographical tradition. There is also textual discussion of passages in *Cyclops*, *Alcestis*, and *Medea*.

Vergil's Aeneid Steven Farron, 1993. This book argues that the *Aeneid*'s main purpose is to present a series of emotionally gripping episodes, not to praise Aeneas and his mission, criticize them, or express two voices concerning them. Furthermore, this approach explains what happens in the *Aeneid* better than the assumption that its purpose is to propound a message that is how it was usually regarded into the nineteenth century and that is what the ancient Greek and Romans regarded as the primary purpose of literature.

Studies in Euripides' Orestes John R. Porter, 1993-12-31. A re-evaluation of the *Orestes* as a curious melange of early and late Euripidean features. Combines a thorough critique of recent criticism on the play with detailed analysis of the work's more troubling scenes.

Statius Thebaid VII Johannes Jacobus Louis Smolenaars, 1994. This commentary examines in close detail Statius' mannered style and analyses the text as a system of intertextual references. Passages from Homer to Valerius Flaccus were exploited by Statius for his challenging adaptations of typical scenes. The identification of these sources offers the key to interpret the poet's artistic intentions.

Metaphysics Theophrastus, 1993. This book offers a text and translation of Theophrastus' *Metaphysics* together with a full commentary which may be used as an introduction to the terminology of Aristotle's school. The Introduction provides an assessment of Theophrastus' contribution to Peripatetic thought on the principles of being.

Two Studies in Attic Particle Usage Christiaan M. J. Sicking, Johannes Max van Ophuijsen, 1993. In the first part, C. M. J. Sicking, by using two speeches by Lysias, discusses the articulation of the text by devices marking the beginning of sentences. A separate index offers some considerations bearing on the value and use of 1) five so-called interactive particles and 2) some particles found in interrogative sentences. In the second part, J. M. van Ophuijsen deals with and all of them traditionally regarded as inferential particles. The discussion focuses on but is not restricted to

Plato's Phaedo There is an excursus on in Herodotus Both authors have adopted a deliberately eclectic approach taking advantage of what modern linguistic research has to offer without at the same time neglecting what many generations of scholars from Hoogeveen to Denniston have contributed to our understanding of ancient Greek *Religion in Livy* D. S. Levene, 1993 A study of how Livy uses religious material and how this fits in with other aspects of his narrative Livy's work is examined systematically to demonstrate how his approach changes in different sections This is shown to reflect neither the subject matter nor Livy's personal beliefs but his narrative technique **Narrative Setting and Dramatic Poetry** M. Kuntz, 2018-07-17 This volume evaluates a single element of tragic art namely the way in which narrative descriptions of place participate in the poetry of tragedy They join together structures of the theater to create a context for tragic performance and ultimately reflect upon tragedy's connection to earlier narrative forms and to the traditional tales that regularly supply tragic plots The first part of this book examines the introductory function of spatial descriptions and the peculiar resources offered to the playwright by cult settings In the second part the spatial oppositions that are inherent structuring devices in traditional tales are taken up in chapters treating the motif of exile in extant tragedy Euripides and Tragic Theatre in the Late Fifth Century Martin Cropp, Kevin Hargreaves Lee, David Sansone, 2000 *Locating Paul* Matthew L.
