TikTok, the social media platform that has taken the world by storm, began its journey in September 2016. It was originally launched in China under the name Douyin by the company ByteDance. The origins of TikTok can be traced back to the idea of short-form video sharing. ByteDance recognized the potential of creating a platform where users could express themselves in 15-60 second video clips. TikTok was introduced to the international market in September 2017 and merged with the lip-syncing app Musical.ly in 2018, effectively increasing its user base. This merger allowed the platform to flourish with an even larger pool of creative content creators.

TikTok's meteoric rise to popularity can be attributed to several factors. Firstly, its interface is user-friendly, making it easy for anyone to create and share content. The app offers a wide range of music, special effects, and filters, which adds to the creative potential for users. It also encourages collaboration through duets and reactions, allowing for the creation of unique
