Using Technology to Transform the Value Chain Fred Kuglin, Ray Hood, 2008-12-22 Technology alone does nothing for global companies. When applied to business processes in an effective way, new technologies can produce breakthrough changes in how companies conduct business. Using Technology to Transform the Value Chain demonstrates the need for using these emerging technologies in business to maintain competitiveness. This book illustrates how connectivity can enable a firm to make informed business choices and create new revenue streams while managing and maximizing connectivity. This text also presents case studies from a variety of industries to show how new technologies can be deployed in different business environments in order to enhance productivity and performance.

**Human Interface and the Management of Information. Interacting with Information** Michael J. Smith, Gavriel Salvendy, 2011-06-27 This two volume set LNCS 6771 and 6772 constitutes the refereed proceedings of the Symposium on Human Interface 2011 held in Orlando FL USA in July 2011 in the framework of the 14th International Conference on Human Computer Interaction HCII 2011 with 10 other thematically similar conferences. The 137 revised papers presented in the two volumes were carefully reviewed and selected from numerous submissions. The papers accepted for presentation thoroughly cover the thematic area of human interface and the management of information. The 75 papers of this first volume address the following major topics: design and development methods and tools, information and user interfaces, design visualisation techniques and applications, security and privacy, touch and gesture interfaces, adaption and personalisation, and measuring and recognising human behavior.

**Encyclopedia of Play in Today's Society** Rodney P. Carlisle, 2009-04-02 Selected as an Outstanding Academic Title by Choice Magazine January 2010. The Encyclopedia of Play: A Social History explores the concept of play in history and modern society in the United States and internationally. Its scope encompasses leisure and recreation activities of children as well as adults throughout the ages from dice games in the Roman empire to video games today. As an academic social history it includes the perspectives of several curricular disciplines from sociology to child psychology, from lifestyle history to social epidemiology. This two volume set will serve as a general non technical resource for students in education and human development, health and sports psychology, leisure and recreation studies and kinesiology, history and other social sciences to understand the importance of play as it has developed globally throughout history and to appreciate the affects of play on child and adult development particularly on health, creativity and imagination.
