## **Google Drive Ideas Returns:**

**The Organizing Idea** Jason Simpson, 2022-03-14 The Organizing Idea is the individual's manual for thriving in the current mass psychosis and a weapon against the post totalitarian system Simpson asserts that we live in a world that not only assumes but attempts to enforce the idea that there is nothing other than this which leads to societal dysfunction rejection of personal responsibility and a specific form of totalitarianism He examines contradiction at both the societal and individual level to trace the current mass psychosis to its primary enabler In doing so he exposes the contradictory values actions and beliefs inherent in our systems institutions and norms There is a sort of schizophrenia in our world today where anything is possible but at the same time nothing matters because all of this came from nowhere is not going anywhere exists for no reason and we know this beyond a shadow of a doubt This book takes the reader on a journey through A sea of contradictions explicates how we all came to be so contradictory and challenges the most sacred philosophical and scientific axioms that we have The journey includes a history of this and other than this and reflects on historical moments of thriving when these two ideas were in balance and societal collapse when they were not Ultimately this book is a phenomenological account of Projection and a theory about how all of this works This book is not for the faint of heart as Simpson's approach is extremely combative and brutally insightful However for those who can endure it this is a journey that will not soon be forgotten It empowers the individual with a life philosophy that simply cannot be shut down The Writer Nijay K.
