[Data Analysis and Decision Making with Microsoft Excel](#) S. Christian Albright, Wayne L. Winston, Christopher James Zappe, 1999. In response to the growing market trend in quantitative education, Albright, Winston, and Zappe's integrated business statistics and management science text presents core statistics and management science methods in a modern unified spreadsheet oriented approach. With a focus on analyzing, not on techniques, the book covers business statistics with some essential managerial science topics included. The example based Excel spreadsheet approach is useful in courses that combine traditional statistics and management science topics, though it can be easily used for a one term business statistics only course. The modeling and application focus together with the Excel spreadsheet add ins provides a complete learning source for both students and practicing managers.
