Midpoints Unleashing The Power Of The Planets:

Midpoints Michael Munkasey, 1991-07-01 Midpoints translates important astrological images into modern American ideas. A midpoint is the place halfway between two planets or points in the horoscope. This book can help you understand the power represented by these combinations and how to recognize their symbolism in your daily experiences with life. **Midpoints: Unleashing the Power of Your Planets** Michael Munkasey, 2018-05-08 Since the 1st edition of this book was published in 1991, it has been a widely used reference book for many astrologers and their students who have recognized the value and importance in horoscope interpretation of the midpoints, the halfway point between any two planets or a planet and a highly significant point such as Midheaven, Ascendant, or the north or south Node of the Moon. The format of this edition is very similar to the first edition, but you will find that the author has updated the interpretive text, so do read it carefully and if you have not used midpoints routinely before, you will soon realize how significant they can be in chart interpretation. Following are a few comments from well-known astrologers familiar with the first edition and midpoint techniques. Working with Midpoints Kathy Allan, 2024-01-01 A simple yet often overlooked astrological technique. The information that midpoints provide is astonishing; they can mirror what is going on in the world in many cases, providing the missing link that explains what is really happening when traditional astrology fails. Veteran astrologer and author Kathy Allan has crafted a new manual that will teach readers to hone their basic chart reading and predictive skills through working with midpoints, long considered a specialized topic in the field of astrology. Initially inspired by the astrology classic *Working with Astrology* by Charles Harvey and Mike Harding, Allan wanted to create a more user-friendly textbook. Exercises are included at the end of each chapter. After explaining what midpoints are and how to find them, Allan uses in-depth case studies that examine the lives and horoscopes of such cultural icons as Carl Jung, Evangeline Adams, and Stephen King, demonstrating midpoints in action. Allan shows us how to delineate transiting and solar arc midpoints as an aid to understanding events. Adding midpoints to ingress, eclipse, and return charts adds detailed information that enables us to more accurately anticipate coming events. Readers will learn all about occupied and unoccupied midpoints, planetary axes, the 360 and 90 degree dials, plus how to contemplate and forecast future trends. At last, here is a systematic and engaging approach to working with midpoints. The perfect companion volume to Allan's acclaimed book on the Lunar Nodes. **The Art of Chart Interpretation** Tracy Marks, 2008-10-01 Learn how to determine and interpret the essential personality traits indicated by the birth chart. Interpreting a horoscope effectively and determining an individual's primary qualities, strengths, and weaknesses requires skill in collecting and organizing astrological information. *The Art of Chart Interpretation* presents a practical system for amateur and professional astrologers confused by the many details of the birth chart. With clarity and insight, Tracy Marks provides a comprehensive method for collecting and evaluating astrological data. Her step-by-step techniques and worksheets aid astrology students in developing their abilities to analyze and synthesize the many facets of the chart and to grasp the

Words on Cassette, 2002 R R Bowker Publishing,2002 Sailerscopes Career Profiling Using Numerology & Astrology V. A. Sailer,2016-10-15 This book begins with a description of the SailerScopes system for Numerology Careers are profiled and score sheets are given to match personal numbers to careers Once this process is mastered the same simple concepts are applied to Astrology Patterns in Astrology are described in a way that s easy to observe in both horoscopes or the actual stars themselves The constellation based zodiac of 13 signs is used for this system as opposed to the traditional 12 signs This teaches you how to identify visual placements of objects in the zodiac by observing the night sky It is easy to convert a sidereal 12 sign horoscope to the 13 sign system using a simple conversion table provided in the book The SailerScopes system can be applied to any potential career path of your choice The career paths highlighted in this book focus on off beat and eccentric careers that are not usually featured in self help guides Numbers and planets for a wider

range of careers are given in the appendices All birthdays and names used to generate career profiles are derived from famous people within each career path The SailerScopes system can be used to profile anything not just careers An example of this is the number 88 which was given its own profile in the book This was based on a list of famous people who had the number 88 in their names or birthdays The Numerology section puts heavy emphasis on double digit numbers especially Master numbers SailerScopes also uses a new concept of Divine numbers which are double digit numbers that end in zero Many people have feared Astrology in the past because it required some mathematical expertise to even derive a horoscope Nowadays free online services will produce a chart for you Even so this still leaves you with a spiderweb of crisscrossing lines and geometric angles to contend with The SailerScopes system has simplified the entire process erasing the spiderweb and focusing solely on conjunctions and planetary containments SailerScopes uses the term frames to describe planetary containments which are nothing more than two planets surrounding a third on the wheel These simple concepts in Astrology have proven to be sufficient for constructing powerful profiles Professional Astrologers and Numerologists will find this book to be a refreshing new take on traditional methods It is also valuable for people new to the divination arts as it provides clear instructions on how to gain information from your birthday name or horoscope Unlike other books that give you personality profiles this book will help you determine what careers are best suited for the energies in your life
