## **Migrant Communication Enterprises Regimentation And Resistance Language Mobility And Institutions:**

*The Routledge Handbook of Migration and Language* Suresh Canagarajah, 2017-02-03 Winner of AAAL Book Award 2020 Shortlisted for the BAAL Book Prize 2018 The Routledge Handbook of Migration and Language is the first comprehensive survey of this area exploring language and human mobility in today's globalised world. This key reference brings together a range of interdisciplinary and multidisciplinary perspectives drawing on subjects such as migration studies, geography, philosophy, sociology and anthropology. Featuring over 30 chapters written by leading experts from around the world, this book examines how basic constructs such as community, place, language, diversity, identity, nation, state and social stratification are being retheorized in the context of human mobility. Analyses the impact of the mobility turn on language use, including the parallel multilingual turn and translanguaging. Discusses the migration of skilled and unskilled workers, different forms of displacement and new superdiverse and diaspora communities. Explores new research orientations and methodologies such as mobile and participatory research, multi-sited ethnography and the mixing of research methods. Investigates the place of language in citizenship, educational policies, employment and social services. The Routledge Handbook of Migration and Language is essential reading for those with an interest in migration studies, language policy, sociolinguistic research and development studies.

**Migrant Communication Enterprises** Maria Sabaté i Dalmau, 2014-08-04 This unique critical sociolinguistic ethnography explores alternative migrant regulated institutions of resistance and subversive communication technology, the locutorios or ethnic call shops. These migrant owned businesses act as a window into their multimodal and hybrid linguistic and communicative practices and into their own linguistic hierarchies and non-mainstream sociolinguistic orders. Here socially displaced but technologically empowered transnational migrant populations actively find subversive ways to access information and communication technologies. As such they mobilise their own resources to successfully inhabit Catalonia at the margins of powerful institutions. The book also focuses on the internal social organisation dynamics as well as on the simultaneous fight against and re-production of practices and processes of social difference and social inequality among migrants themselves.

*Exploring (Im)mobilities* Anna De Fina, Gerardo Mazzaferro, 2021-11-23 The impact of mobility and superdiversity in recent sociolinguistic research is well established yet very few studies deal with issues related to immobility. The chapters in this book focus on the sociolinguistic investigation of the dynamics between mobility and immobility as experienced by migrants, asylum seekers and members of minority or exploited groups. Central to the book is an exploration of how mobilities are affected by and in turn affect power relations and of the kinds of resources used by people to deal with im mobility processes. The book brings to light a new critical sociolinguistic imagination that is responsive to 21st century processes of im mobilities as socially discursively and emotionally constructed and negotiated.

**Applied Linguistics and Politics** Christian W. Chun, Li Wei, 2022-04-28 In the current climate of extreme nationalism and fear mongering a new politics for a socially just world is needed more than ever.

Featuring internationally renowned scholars Applied Linguistics and Politics explores how innovative theories methodologies and pedagogies in applied linguistics can address the political challenges and issues arising in the 21st century Adopting a Gramscian theoretical framework the five parts of this volume focus on the various ways in which the political is discursively and materially realized in its dialogic co constructions within the media the economy culture and identity affect and education Examining the power instantiations of sociolinguistic and semiotic practices in society from a variety of critical perspectives this book questions how applied linguists can respond to and challenge current discourses of issues such as militarism nationalism Islamophobia sexism racism and the free market and suggests future directions for research Making use of a range of methodologies from discourse analysis sociolinguistics semiotics and political science Applied Linguistics and Politics demonstrates how linguistics can intervene in the political and help mobilize and organize for an economically and socially just society

**Language, Migration and Multilingualism in the Age of Digital Humanities** Ignacio Andrés Soria, Sandra Issel-Dombert, Laura Morgenthaler García, 2023-08-21 Located at the intersection of humanities and applied informatics the fledgling discipline of Digital Humanities is bringing new impulses to the field of Romance linguistics Those are especially productive in the context of migration and heteroglossic practices which encounter constraining language ideologies in Western societies The aim of this volume is to critically reflect on both the usefulness and limitations of digitization in different areas and superdiverse contexts of the Spanish speaking world Through 11 case studies it illuminates the digital turn from different theoretical and methodological perspectives providing a better understanding of the complex interplay between language and digitization

**Sociological Abstracts** Leo P. Chall, 1982 **Language, Migration and Social Inequalities** Alexandre Duchene, Melissa Moyer, Celia Roberts, 2013-11-12 Migration and the mobility of citizens around the globe pose important challenges to the linguistic and cultural homogeneity that nation states rely on for defining their physical boundaries and identity as well as the rights and obligations of their citizens A new social order resulting from neoliberal economic practices globalisation and outsourcing also challenges traditional ways the nation state has organized its control over the people who have typically travelled to a new country looking for work or better life chances This collection provides an account of the ways language addresses core questions concerning power and the place of migrants in various institutional and workplace settings It brings together contributions from a range of geographical settings to understand better how linguistic inequality is reproduced in this new economic order
