Open and Distance Education in Asia, Africa and the Middle East Olaf Zawacki-Richter, Adnan Qayyum, 2019-02-18 This book is open access under a CC BY 4.0 license. This book describes the history, structure and institutions of open and distance education in six countries: China, India, Russia, Turkey, South Africa and South Korea. It describes how open and distance education is evolving in a digital age to reflect the needs and circumstances of the national higher education systems in these countries. It also explores the similarities and differences between how their open and distance higher education systems are managed and structured. This book is the second in a series following *Open and Distance Education in Australia, Europe and the Americas* (Springer 2018). Both books compare and draw conclusions about the nature of open and distance education in the context of various national higher education systems. In a digital era characterized by the growing use of online open and distance education, this book will prove particularly valuable for policy makers and senior administrators who want to learn about establishing or expanding open and distance education services. In addition, it offers a valuable reference guide for researchers, academics and students interested in understanding the different approaches to open and distance education.

A Scholarship of Doctoral Education Petro du Preez, Shan Simmonds, 2018-11-21 This edited collection is cohesive by a focus on becoming a doctoral student, becoming a researcher, becoming an academic and becoming a supervisor. This journey of becoming takes us from pre-enrolment in a doctoral programme through the many phases of candidature and into the post-doctoral environment. Both advancing theory and providing very practical examples, this book is of immense value to doctoral students and academics, not only in South Africa for whom it should be a mandatory read, but also for doctoral education researchers, doctoral students and supervisors worldwide, as the themes covered extend well beyond the borders of South Africa.

Conferences as Sites of Learning and Development Ortrun Zuber-Skerritt, 2017-02-24 This book applies and expands upon the concept of the learning conference as a site of learning and development using the paradigm and methodologies of participatory action learning and action research (PALAR). Making a significant contribution to the field, this is the first book to outline the characteristics and development of a learning conference culture in theory and practice. It demonstrates how application of the learning conference concept can maximise learning opportunities and successful research outcomes to bring about sustainable professional, organizational and community development. An international team of contributors offer their diverse perspectives on conferences and the practical and theoretical work conducted at these events. They contextualize these reflections in the light of global developments in this increasingly troubled twenty-first century, marked by greater complexity through technology, globalization, neo-liberalism, climate change and other sources of practical and ideological change, all of which enhance the conceptual and practical utility of the learning conference.

Afrikaans Linguistics WAM Carstens, Nerina Bosman, 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics, *Afrikaans Linguistics: Contemporary Perspectives* marks a seminal contribution to the field.

This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language The chapters in this book written by prominent South Africans as well as international scholars working in the field of Afrikaans serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century The primary focus remains on illuminating 21st century research trajectories offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics □□□□
