*The Impact of Artists on Contemporary Urban Development in Europe* Monika Murzyn-Kupisz,Jarosław Działek,2017-04-04 This book provides an up to date critical review of theoretical concepts connecting artists and urban development It focuses on the multidimensionality of potential and actually observed interactions between artists and cities and their impacts on urban space its form functions and perceptions Departing from the viewpoint that a more nuanced geography of artists is still needed to fully conceptualise the diversity of roles artistic creatives play in urban transformations the book presents contributions with a common denominator of distinguishing artists as a unique professional and social group The essays focus on the complexity of the artists spatial preferences and analyse a myriad of expressions of artists presence in urban centres in different geographic political economic social and spatial contexts drawing on experiences from

16 cities across Europe The book presents several case studies ranging from Spain to Russia and from Scandinavia to Slovenia and offers new pathways into understanding the implications of artists residence and activities in contemporary cities Apart from presenting less obvious expressions of artists involvement in urban transformations such as their participation in urban planning or grass root urban movements the volume explores the ambivalence of artists interactions with cities Particular chapters test several divergent narratives of artistic creatives as inspirers and instigators of urban changes pioneers of gentrification contesters and resisters of neoliberal urban policies or mere indicators of transformations inspired by other actors instrumentalized by public and private stakeholders Catalogue of Copyright Entries ,1941

*Gender and the Quest in British Science Fiction Television* Tom Powers,2016-10-21 The subjects of this book constitute a significant cross section of BBC science fiction television With such characters as the Doctor an enigmatic time traveling alien Kerr Avon a problematic rebel leader Dave Lister a slovenly last surviving human and Captain Jack Harkness a complex omnisexual immortal these shows have both challenged and reinforced viewer expectations about the small screen masculine hero This book explores the construction of gendered heroic identity in the series from both production and fan perspectives The paradoxical relationships between the producers writers and fans of the four series are discussed Fan fiction criticism and videos are examined that both celebrate and criticize BBC science fiction heroes and villains *You're Wrong, I'm Right* Corey S. Scher,Anna Clebone,Sanford M. Miller,J. David Roccaforte,Levon M. Capan,2016-11-10 This text covers the major controversies and myths in each of the major anesthesia subspecialties You re Wrong I m Right is designed to be an easy and engaging evidence based read that offers the fast paced give and take of a debate between two experts at the top of their game capturing their full argument including expressions of humor and displays of temper Each point of contention begins

with a real case carefully selected to encapsulate the argument One author then argues the pro side and another the con Sometimes a single author may argue both sides In doing so the authors highlight the newest evidence and remind us of classic principles that have stood the test of time At the end of the debate readers can determine which argument they will use in their clinical practice and may also consult a final Consensus section that identifies the editors and contributors picks of the one best practice in a range of different situations
