For this purpose stakeholders from medium sized businesses, science, politics and administration met at the seventh Hanseatic Conference in May 2012 in Hamburg. For two days the participants discussed about innovation and innovative strategies in the regional policy around the Mare Balticum to further strengthen the region. It became evident that a sustainable promotion of innovation demands a closer cooperation within the regions on a transnational level but also between administrations and especially between companies and R D institutions. The Baltic Sea area will only be one of the most innovative and strong regions in the world if the bordering countries build a unit. This publication included the presented papers and summarizes the discussion of the participants.
