## **Global Meets Digital**

Vinod Jain,2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4 0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H

Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China. His opinion pieces have appeared in The Washington Post, The Baltimore Sun, Mensa Bulletin, and Economic Times and Mint India's 1 and 2 business dailies among other media. In the past he worked as a middle and senior level executive with American and British multinationals. *A New American Labor Movement* William E. Scheuerman, 2021-10-01 The American labor movement isn't dead. It's just moving from the bargaining table to the streets. In *A New American Labor Movement* William Scheuerman analyzes how the decline of unions and the emergence of these new direct action movements are reshaping the American labor movement. Tens of thousands of exploited workers from farm laborers and gig drivers to freelance artists and restaurant workers have taken to the streets in a collective attempt to attain a living wage and decent working conditions with or without the help of unions. This new worker militancy expressed through mass demonstrations, strikes, sit-ins, political action, and similar activities has already achieved much success and offers models for workers to exercise their power in the twenty-first century. Finally, Scheuerman notes many of the strategies of the new direct action groups share features with the sectoral bargaining model that dominates the European labor movement, suggesting that sectoral bargaining may become the foundation of a new American labor movement.

**Ubering: the "Rideshare" Story** Rafael Fermoselle, 2019-12-22 There are a few creations that have become products because they became dominant in the market and synonymous with an entire product category. Genericized names include Frigidaire which became synonymous with refrigerator, Xerox which became synonymous with photocopying, and Kleenex which became synonymous with tissues. That has been the case with Uber, which has become identical with rideshare. Despite rapid growth since 2010, Uber has not become profitable, is carrying a cumulative loss of over 15 billion as of November 2019, and it is doubtful if it will ever become profitable. Despite becoming an eponym, a key component of the gig economy, and inspiring numerous copycats, there is no guarantee that Uber will be able to generate an adequate return on investment and remain in business. The concept has fatal flaws that impair its legal soundness. In the end, consumers and society determine if any business succeeds or fails. Government regulations are largely non-partisan and exist to protect society, the general welfare, and the free enterprise system. Uber and the ride share concept may be plowed under by regulations that exist to protect the public interest. However, regulations sometimes backfire and cause unintended consequences.

*Law at Work* Harry Glasbeek, 2024 In a series of illuminating essays, the renowned Harry Glasbeek unpacks how law has been used to ensure that workers' aspirations are kept in check. *Law at Work* uncovers how the legal system, through its structures and mechanisms, legitimizes and reinforces the exploitation of workers. Using historic

and contemporary examples Glasbeek illustrates how conscious manipulations of law are part and parcel of how law protects capitalists at the expense of workers He proves how the very laws designed to safeguard rights and freedoms often act as invisible shackles compelling readers to reflect on their own struggles as they navigate a world where the legal system fails to serve their interests These manipulations are made to look innocent because the underlying structures and ideology which give rise to specific rules are not challenged or challengeable This thought provoking book is an indispensable resource for those seeking to understand the hidden dynamics of worker oppression empowering readers to question prevailing narratives and envision a future where the law truly serves the interests of all *Trade Union Information*, 1955 *The Century Dictionary and Cyclopaedia* William Dwight Whitney, Benjamin Eli Smith, 1899 *A Hand-book of the English Versions of the Bible* Jacob Isidor Mombert, 1883 **English versions of the Bible, a hand-book** Jacob Isidor Mombert, 1883 *The Century Dictionary*, 1889 **The Century Dictionary and Cyclopaedia: The century dictionary ... prepared under the superintendence of W.D.
