Organizational Behavior John A. Wagner III, John R. Hollenbeck, 2014-09-15 The management of organizational behavior is a critically important source of competitive advantage in today's organizations. Every organization's members share a constellation of skills, abilities, and motivations that differentiates it from every other firm. To gain advantage, managers must be able to capitalize on these individual differences as jobs are designed, teams are formed, work is structured, and change is facilitated. This textbook, now in its second edition, provides its readers with the knowledge required to succeed as managers under these circumstances. In this book, John Wagner and John Hollenbeck make the key connection between theory and practice to help students excel as managers charged with the task of securing competitive advantage. They present students with a variety of helpful learning tools, including coverage of the full spectrum of organizational behavior topics, managerial models that are based in many instances on hundreds of research studies and decades of management practice, introductory mini cases, and current examples throughout the text to help students contextualize organizational behavior theory and understand its application in today's business world. The ideal book for undergraduate and graduate students of organizational behavior. *Organizational Behavior: Securing Competitive Advantage* is written to motivate exceptional student performance and contribute to their lasting managerial success. *Start Your Own College Planning Consultant Business* Eileen Figure Sandlin, Entrepreneur magazine, 2013-08-19 Thanks to today's busy lifestyles, nearly 4,500 institutions of higher learning and more than 21 million students, the need for college admissions consulting services continues to grow. The experts at Entrepreneur detail how education enthusiasts and/or those with a passion for counseling others can take advantage of this home-based business opportunity. Coached by our experts, entrepreneurs learn how to identify their specialty or services, from steering high school students towards acceptance to assisting in filing admission and financial applications and other market needs. They also learn business basics such as establishing their company as a legal entity, outfitting a home office, handling the finances, promoting your services, and the like. Given contact lists, resource lists, sample documents, and even interviews from practicing entrepreneurs, sharing money-saving tips, pitfalls to avoid, and tricks of the trade, entrepreneurs gain all the intel they need to make their business startup and launch a success. **Global Business: Concepts, Methodologies, Tools and Applications** Management Association, Information Resources, 2011-05-31 This multi-volume reference examines critical issues and emerging trends in global business with topics ranging from managing new information technology in global business operations to ethics and communication strategies. Provided by publisher. **Transforming E-Business Practices and Applications: Emerging Technologies and Concepts** Lee, In, 2009-12-31 Transforming E-Business Practices and Applications: Emerging Technologies and Concepts presents an integrated view of the latest issues and technologies evolving from business transactions and support. ,1998-07      **College Planning Consultant Business** Eileen Figure Sandlin, Entrepreneur magazine, 2013-09-16 A record 21.6 million students attended American colleges and universities in the fall of 2012. Of those students, the U.S. Census Bureau says more than 4.4 million were in the 15-19 age bracket, the market primed and ready for the advice dispensed by college consultants. The experts at Entrepreneur zero in on this growing marketing and show education enthusiasts how to turn their passion into profits with a college planning and consultant business.      *Organizational Behaviour* Ray French, 2011 This new edition builds on the strengths and successes of the first edition and has been fully updated to reflect changes in the world of work following the global financial crisis. The authors combine a managerial approach focusing on practical real world applications with a rigorous critical perspective that analyses the research behind the theories. The text addresses alternative theoretical perspectives in parallel to the introduction of new worldwide cases and examples. New pedagogical features such as the Ethical Dilemma and Critical Thinking boxes reinforce the critical approach. The concise coverage of the core topics can be applied to both one semester and year long teaching and learning patterns.      **Mediaweek**, 2008
