Future Mind Jerome C. Glenn, 1989 Glenn examines the potential for future integration between man and machine, drawing on examples in medicine (the Jarvik heart, Utah arm, Triad hip, etc.) and advances in human-like processing via machine in terms of speech recognition and other information technologies. While the author touches on topics ranging from philosophy and religion to science and politics, the unifying theme is what he sees as the inescapable blending of machine-enhanced humans and conscious artificial intelligence.
