Presents an anthology of the best sports writing published in 2014 selected from American magazines and newspapers. *The Best Book of Baseball Facts and Stats Ever!* Luke Friend, Don Zminda, 2002-10. It doesn't get more all American than baseball and this all encompassing celebration of the sport covers every major player and event in the history of the Major League. The book features a tribute to 100 of the game's legends from Babe Ruth and Joe DiMaggio to Mark McGwire and Sammy Sosa and everyone in between. The development of professional baseball is discussed including special attention to controversies, scandals and revealing statistics provided by STATS Inc, the largest supplier of baseball facts and figures in the world. There is no better gift to present to a baseball lover than this remarkable compilation and it is a must have for all those who play, watch and enjoy the sport. Luke Friend is a writer who has contributed to a wide range of magazines from *Golf World* to *Total Film*. *The Crisis of Progress* John C. Caiazza, 2016-01-06. This book is about the concept of progress, its separate varieties, its current rejection and how it may be reconsidered from a philosophical and scientific basis. John C. Caiazza's main emphasis is on how science is understood as it has a direct impact on social values as expressed by prominent philosophers. He argues that progress is at a standstill which presents a crisis for Western civilization. Caiazza presents historical examples both of scientific inquiry and social and cultural themes to examine the subject of progress. Beginning with the Whig model and progressive political values exemplified by Bacon and Dewey, he also examines other variations: the Enlightenment, cosmopolitanism and totalitarianism. Technology, argues Caiazza, also has a stultifying effect on Western culture and to understand the idea of progress we must take a philosophic rather than a scientific point of view. Modern cosmology has inevitable humanistic and theological implications and major contemporary philosophers reject social science in favor of ancient concepts of virtue and ethics. In the end, Caiazza writes that time is an agent, not a neutral plain on which scientific and historical events occur. We can expect technology to keep us in stasis or become aware of the possibility of transcendence. This book will be of interest for students of scientific history and philosophy.
