Metaverse Development Prasanna Bhattathiri, 2025-01-03. Metaverse Development A Step by Step Handbook is a thought provoking exploration of the intersection of technology, society and creativity. This book is essential for any creator or company venturing into the Metaverse. Shaped by individuals and inspired by unique social experiences, the Metaverse is still in its early stages. We delve into how this new world will capture our present moments and shape our future. The book examines whether the Metaverse will replace the internet or fade away, helping readers decipher both the current hype and potential seismic changes. We take an extended tour of the Next Internet exploring proto metaverses like Fortnite, Minecraft and Roblox. This book provides a comprehensive definition of the Metaverse, the technologies powering it and the necessary breakthroughs for its full realization. We address the governance challenges, the roles of Web3 blockchains and NFTs, and predict the future winners and losers in the Metaverse. The potential applications of the Metaverse are nearly limitless, transforming how we live, work and play. We also recognize the educational potential of virtual worlds exploring platforms like Web 3D, MDV3D, ECODI and augmented reality. This book offers a comprehensive guide to understanding and leveraging the Metaverse for education and innovation.

Human-Centered Metaverse Chang S. Nam, Donggil Song, Heejin Jeong, 2024-11-05. Human centered Metaverse Concepts, Methods and Applications is a valuable resource in the understanding of the metaverse and the factors that influence human-AI interaction. It provides an up to date repository of theory, fundamentals, techniques and diverse applications and comprehensively addresses recent and rapid changes in the field of human centered metaverse. Interest in the human centered metaverse has grown enormously including from researchers and practitioners in the areas of extended reality e.g. VR, AR, MR etc, learning technologies, human-computer interaction, education, psychology, and sociology, and philosophy. Offers a unique review of extensive research on human-centered metaverse technology. Provides an in-depth look at the different methods and techniques used to investigate human-human or human-AI interaction in virtual space. Features a repository of the open questions and challenges in human cognition e.g. trust, emotion, motivation etc in human centered metaverse today. Explores theories, models and empirical findings about ways in which human centered metaverse changes or operates in social interaction in virtual space. Investigates human factors, human-system integrations and human-computer interface concerns in the design, development and evaluation of human centered metaverse applications.
