industry professionals researchers scholars practitioners academicians instructors and students Onstage, Or Behind the Scenes? Relative Learning Benefits of Simulation Role-Play and Design Daniel Druckman, Noam Ebner, 2012 In this article the authors report the results of two experiments that explored hypotheses about the relative learning advantages of role play and scenario design The experiments were conducted with similar student populations in Australia and Israel Using a matched pairs design participants were randomly assigned to design and role play conditions They worked on their tasks following an hour long lecture on three negotiation concepts alternatives time pressure and negotiating power A lecture only control group was implemented in the Australian experiment In both experiments designers working behind the scenes indicated better concept learning in the short run than their role play counterparts performing onstage as well as in comparison with the control group They showed better understanding of the way the concepts are related and retained the learning gains over time Moreover the designers were at least as motivated as role players and controls and for the Israel participants showed more motivation The results favoring designers spread widely across the various questions asked immediately after the experience and 1 week later 86% of the answers given favored designers in terms of direction 52% of these were statistically significant Implications are discussed for explanatory mechanisms programmatic research and teaching training approaches *Roblox Top Role-Playing Games* Official Roblox Books (HarperCollins), 2019-05-21 A comprehensive guide to some of the greatest role playing games available on Roblox Get the official scoop on some of the most popular role playing games on Roblox like the Bloxy Award winning MeepCity the massively popular Royale High the classic Work at a Pizza Place and much more Each profile features in depth interviews with the developers and creators as well as a comprehensive gameplay guide so you can take your skills to the next level **TagAlong RolePlay** Remy A. Mock, 2016 Smart phone applications that help users learn languages are quickly taking over the language learning market due to their convenience and accessibility It is estimated that the mobile share of the language acquisition market should climb 73 percent to around 14.5 billion by 2019 Reuters 2015 However none of the applications currently available are immersive or have multi user features Immersive learning and tandem learning has been shown to have many benefits TagAlong RolePlay is a low cost multiuser VR platform that was created to incorporate this type of learning Furthermore TagAlong RolePlay has an authoring tool that allows teachers to create various virtual language learning environments and tasks This allows a teacher to create tasks specific to the student's needs For example a student trying to learn English to become a doctor in the US will need to learn the words pertaining to the medical world The robust and flexible TagAlong RolePlay platform creates a more superior efficient and engaging learning experience
