**Early Childhood Curriculum** Sue Clark Wortham, 2010 Appropriate for undergraduate courses on curriculum methods in early childhood and primary grade education This textbook uses current interpretations and applications of classic theories as a basis for understanding how to develop early childhood curriculum and instruction for children ages 0 8 The author stresses the need for readers to understand the foundations of their programs prior to developing and using quality curriculum and teaching With its chronological approach from infancy through Grade 3 this text directly ties curriculum to the understanding of child development

**Early Childhood Assessment** National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Board on Children, Youth, and Families, Committee on Developmental Outcomes and Assessments for Young Children, 2008-12-21 The assessment of young children s development and learning has recently taken on new importance Private and government organizations are developing programs to enhance the school readiness of all young children especially children from economically disadvantaged homes and communities and children with special needs Well planned and effective assessment can inform teaching and program improvement and contribute to better outcomes for children This book affirms that assessments can make crucial contributions to the improvement of children s well being but only if they are well designed implemented effectively developed in the context of systematic planning and are interpreted and used appropriately Otherwise assessment of children and programs can have negative consequences for both The value of assessments therefore requires fundamental attention to their purpose and the design of the larger systems in which they are

used Early Childhood Assessment addresses these issues by identifying the important outcomes for children from birth to age 5 and the quality and purposes of different techniques and instruments for developmental assessments

**Pathways With Purpose** Sarah J. Royer, 2018-08-21 When I started thinking about building a Faith based curriculum for the early childhood classroom my goal was to create a curriculum that would catch the interest of children 0 Kindergarten See I have worked in the early childhood classroom for almost two decades and while the goal is at the heart of the curriculum I have used the interest it has sparked in our young ones is mild and dulled down at best How can we best instill an excitement to learn in our young ones By making the material and manipulatives hands on and exciting I don t mean by reading a story and pulling out paper puppets on craft sticks although this may be what some children like and want to explore What I mean is presenting values and morals in an explorative manner in conjunction with developmentally appropriate learning standards that help engage your students in learning experiences while getting them excited Including stories and sensory materials story buckets role playing with dress up materials including a variety of mixed media to spark your student s interests is absolutely necessary Create an environment that appeals to learners of various ages backgrounds and learning styles Make your lesson times fun and interesting and your learners will gravitate back for more
