Gobrecht, 1971 *Illinois Football Record Book*, 2012 **AlphaBrain** Stephen Duneier, 2019-02-11 Smarter decision making based on cognitive science AlphaBrain is the investor's guide to achieving more doing better and reaching higher At its core the magnitude of your success is based on the quality of your decisions The problem is that human beings are poor decision makers we tend to approach problems after they arise instead of planning for them in advance We put too much weight on instinct belief and gut feeling We make the same mistakes over and over again so reliably in fact that cognitive science can accurately predict exactly which mistakes we'll make and when This book offers a way to understand and plan for the human mind's usual tendencies to help you make smarter investment decisions Using a framework based on cognitive research you'll learn how to approach decisions objectively systematically and constantly review your process you'll take action based on evidence instead of intuition and get ahead of potential problems before they get the best of you With so much riding on the correctness of your choices natural tendency can be a dangerous thing This book shows you how to remove the bias and emotion to start making choices backed by hard evidence and objective data and lower your stress Shift your processes from reactive to proactive Base decisions on reality over belief Eliminate cognitive bias and reduce common mistakes Make better decisions with a systematic objective approach Why do we begin managing risk only once it becomes apparent Why do we

react to the market instead of making the big decisions before emotion takes over Investing has always been a largely reactive field but those who dominate it approach decision making less like a human and more like a machine AlphaBrain shows you how to get real about investing with cognitive techniques that lead to smarter evidence based decisions
