College Writing Skills with Readings John Langan, Sharon Winstanley, 2003 College Writing Skills with Readings Third Canadian Edition will help students master the traditional five paragraph essay and variations on this essay structure. It is a very practical book with a number of special features to aid instructors and their students. Four principles are presented as keys to effective writing: unity, support, coherence and effective sentence skills. Activities and assignments are numerous and varied, nearly two hundred activities and tests are included. The emphasis on logic and the pursuit of ideas and explanations in a sequential manner starts in the first chapter. Students are introduced to the two principles that are the bases of clear thinking and writing: making a point and providing support to back up that point. Each section of the book deals with a distinct aspect of writing. Instructors can therefore turn quickly and easily to the skills they want to present.
