New skills are necessary to create advertising that builds brand and sales. In his latest book Vaynerchuk argues that today's fast growing businesses brands content creators and influencers have one thing in common: They mastered storytelling in areas of underpriced attention which predominantly exists across a handful of social media platforms. Informed by 20 years of business and marketing success he contends that the biggest transformation and opportunity is the TikTokification of Social Media. Increasingly platforms are distributing content based on what users are interested in rather than who they follow. **The Quiet Zone** Stephen Kurczy, 2021-08-03 In this riveting account of an area of Appalachia known as the Quiet Zone where cell phones and WiFi are banned, journalist Stephen Kurczy explores the pervasive role of technology in our lives and the innate human need for quiet. Captures the complex beauty of a disconnected way of life. *The Nation* With a new afterword to the paperback edition, Deep in the Appalachian Mountains lies the last truly quiet town in America. Green Bank, West Virginia, is a place at once futuristic and old-fashioned. It's home to the Green Bank Observatory where astronomers search the depths of the universe using the latest technology while schoolchildren go without WiFi or iPads. With a ban on all devices emanating radio frequencies that might interfere with the observatory's telescopes, Quiet Zone residents live a life free from constant digital connectivity. But a community that on the surface seems idyllic is a place of contradictions where the provincial meets the seemingly supernatural and quiet can serve as a cover for something darker. Stephen Kurczy embedded in Green Bank, making the residents of this small Appalachian village his neighbors. He shopped at the town's general store, attended church services, went target shooting with a seven-year-old, square danced with the locals, sampled the local moonshine. In *The Quiet Zone*, he introduces us to an unforgettable cast of characters. There is a tech buster patrolling

the area for illegal radio waves electrosensitives who claim that WiFi is deadly a sheriff s department with a string of unsolved murder cases dating back decades a camp of neo Nazis plotting their resurgence from a nearby mountain hollow Amongst them all are the ordinary citizens seeking a simpler way of living Kurczy asks Is a less connected life desirable Is it even possible The Quiet Zone is a remarkable work of investigative journalism at once a stirring ode to place a tautly wound tale of mystery and a clarion call to reexamine the role technology plays in our lives
