**The Moral Metaphor System** Ning Yu,2022-06-27 This book investigates moral metaphors in English and Chinese applying conceptual metaphor theory to a comparative study of the linguistic manifestation of the moral metaphor system rooted in the domains of bodily and physical experience Ning Yu sheds light on the metaphorical nature of moral cognition and how it is systematically manifested in language and explores the potential commonalities that define moral cognition in general as well as the differences that characterize distinct cultures The work investigates moral cognition at the cultural level as reflected in language based on linguistic evidence from both English and Chinese and to a limited extent multimodal evidence from the corresponding cultures The moral metaphor system is taken to consist of three major subsystems referred to as physical visual and spatial These subsystems are clusters of conceptual metaphors whose source concepts are from domains of embodied experiences in the physical world and which are formulated in contrastive categories with bipolar values for the target concepts of moral and immoral The study is characterized by two keywords system and systematicity The former refers to the fact that metaphors conceptual and linguistic are connected within networks and the latter to the need for those metaphors to be studied in such networks

Extended Conceptual Metaphor Theory Zoltán Kövecses,2020-04-23 Offers an extended improved version of Conceptual Metaphor Theory CMT updating it in the context of current linguistic theory

*Metaphors of the Ancient World* Fabian Horn,2025-03-17 The objective of this edited volume is to bring together contributions from the fields of Ancient Greek and Latin Philology that apply the cognitive linguistic framework of Conceptual Metaphor Theory CMT to ancient texts and other source material The individual chapters are unified by this shared theoretical approach occasionally supplemented by further theoretical

frameworks and methodologies from literary criticism and the cognitive sciences. The scope of the volume is broad and there is no restriction to specific literary genres or periods of history. Discussion ranges from the Archaic Greek epic poetry of Homer to the early imperial philosophical treatises of Seneca the Younger. Topics treated along the way include Presocratic philosophy, Ancient Greek comedy and Roman love elegy. This collection of research by theoretically aligned Classicists thereby showcases the potential and versatility of CMT when it comes to the study and interpretation of ancient texts.

**How Metaphors Guide, Teach and Popularize Science** Anke Beger, Thomas H. Smith, 2020-04-22. Metaphors are essential to scientists themselves and strongly influence science communication. Through careful analyses of metaphors actually used in science texts, recordings and videos, this book explores the essential functions of conceptual metaphor in the conduct of science teaching, of science and how scientific ideas are promoted and popularized. With an accessible introduction to theory and method, this book prepares scientists, science teachers and science writers to take advantage of recent shifts in metaphor theories and methods. Metaphor specialists will find theoretical issues explored in studies of bacteriology, cell reproduction, marine biology, physics, brain function and social psychology. We see the degree of conscious or intentional use of metaphor in shaping our conceptual systems and constraining inferences. Metaphor sources include social structure, embodied experience, abstract or mathematical formulations. The results are sometimes innovative hypotheses and robust conclusions, other times pedagogically useful if inaccurate stepping stones or at worst misleading fictions. As of January 2023, this e-book is freely available thanks to the support of libraries working with Knowledge Unlatched.

**Metaphor and National Identity** Orsolya Putz, 2019-12-15. Due to the Treaty of Trianon, which was signed at the end of World War I in 1920, Hungary lost two thirds of its former territory as well as the inhabitants of these areas. The book aims to reveal why the treaty still plays a role in Hungarian national identity construction by studying the alternative conceptualization of the treaty and its consequences. The cognitive linguistic research explores

Hungarian politicians conceptual system about Trianon with special interest on conceptual metaphors It also analyzes the factors that may motivate the emergence of the conceptual system as well as its synchronic diversity and diachronic changes The monograph provides a niche insight into the conceptual basis of how contemporary citizens of Hungary interpret the treaty of Trianon and its consequences The book will be of interest to cognitive and cultural linguists cultural anthropologists or any professionals working on national identity construction **Lagos Review of English Studies** ,2018
