

## NASBITE CGBP Self Study & Review Guide

Congratulations on your preparations for the NASBITE CGBP Exam. Achieving the NASBITE Certified Global Business Professional designation certifies your knowledge in the highly varied practice of global business. Companies rely on the expertise of individuals handling their international activities and are seeking proof of competency. Receiving the NASBITE CGBP designation is an important step to proving that competency. This guide is intended to help candidates better understand how they can prepare for the NASBITE CGBP exam.

### 1) NASBITE Practice Delineation

The practice delineation (published on the credential website [http://cymodn.com/sites/www.nasbite.org/resource/resmgr/files/nasbite\\_cgbp\\_practice\\_deline.pdf](http://cymodn.com/sites/www.nasbite.org/resource/resmgr/files/nasbite_cgbp_practice_deline.pdf)), is the most accurate way to ensure you are prepared for the NASBITE CGBP exam. All questions accepted for use on an exam were carefully checked against the practice delineation. If the knowledge tested by a proposed question could not be directly linked to a task/knowledge statement in the practice delineation, it was not accepted.

The most thorough way to prepare for the exam is to carefully review the practice delineation to determine your strengths or weaknesses in particular areas. You may find particular sections fit with your prior experience in international trade, and requires little further study. However, you may also find that there are other areas that have been outside of job responsibilities and will require more preparation. Only by doing a 'self-audit' against the practice delineation can you make this determination.

If you have taken a study course, reviewing the practice delineation will also help to make sure you have retained the knowledge from the course, and that the studies were complete.

### 2) NASBITE Terminologies

The practice delineation makes references to a number of terms, theories, and concepts commonly used in global business. The following list comes directly from the practice delineation. It must be stressed that these are only examples and do not represent the complete set tested by the exam.

By reviewing the following list you can identify gaps in your training or studies.
