Oracle Purchasing Implementation Guide:

Oracle E-Business, 3rd Edition Isaca,2010 [The ABCs of Workflow for E-Business Suite Release 11i and Release 12](#)

Karen Brownfield,Susan Behn,Gerald Jones,2008-04-08 Workflow is Oracle s E Business Suite tool for modeling business processes Workflow combines procedures performed by the computer with a system of notifications that allow humans to better direct the computer how to proceed This book provides a very thorough explanation of the various components of Workflow You ll learn step by step how to develop and test custom Workflows and how to administer Workflow using OAM the Workflow Management screens and Oracle Diagnostics This book also explains how the underlying tables store the data generated by Workflow and how to perform the setups required for a few of the most commonly used Oracle Workflows The book also includes SQL scripts and sample procedures that we use at Solution Beacon to assess and solve Workflow problems as well as DBA topics like cloning considerations and partitioning Workflow objects *Governance, Risk, and Compliance Handbook for Oracle Applications* Nigel King,Adil R. Khan,2012-08-24 The book is not organized by product rather by the governance and risk assurance processes A given product may be represented in multiple places within the book and a given process may contain multiple product references To ensure that we keep ourselves grounded in real problems the book is written as a journal of a fictional company establishing its governance processes It will introduce managers and directors responsible for various aspects of the governance risk and compliance problem and where that problem is exposed and how it is addressed in the technology and business applications The audience for this book is the people that advise the board the internal audit department and CIO office on controls security and risk assurance Consultants that are implementing Financials or GRC Applications who wish to gain an understanding of the Governance Risk and Compliance processes and how they are represented in Oracle should find it a useful primer Risk Assurance professionals will find it a reliable companion
