Sleep Hacks Ideas Returns:

Never to Return Marjorie McArdell Davey, 2014-07-30 Characters in this book are fictional and have no relation to boys who were sent to Point Puer. It is a fascinating story of those 7000 boys mostly teenagers who passed through this childrens prison across the bay from Port Arthur. Only three ever escaped. This story is an account of what might have happened to them. *The Alcohol Reset* Bledar Lika, Alcohol is not a character flaw. It's a neurochemical loop. And once you understand it the craving dissolves. The Alcohol Reset is a modern science based guide for people who want to stop drinking not through shame labels or willpower but by restoring the brain and nervous system that alcohol quietly disrupts. This book is for Functional drinkers who feel stuck flat or exhausted. High performers who drink to cope with stress. Anyone tired of being told they must hit rock bottom to change. Readers who want science not slogans. Inside you'll discover Why alcohol hijacks dopamine, GABA and stress hormones. Why willpower fails and what actually works. What happens in the brain and body when you stop drinking. How sleep, anxiety, mood and motivation recover naturally. The hidden hormonal effects on libido, energy and confidence. How to quit safely gradually or all at once without ego or fear. How to rebuild pleasure, focus and emotional strength. How to design a life that no longer needs alcohol. This is not a rehab manual. This is not an ideology. This is a biological reset. Written in a calm, intelligent voice. The Alcohol Reset blends neuroscience, physiology and real world clarity into a book that feels less like recovery and more like coming home to yourself. If you've ever wondered whether alcohol is quietly costing you more than you realize, this book will give you the answer and the way forward.

Lyon,2016-02-22 Stress is an inevitable part of being lawyer and it can even be a positive force it can help you push through long hours or meet tough targets However when stress becomes excessive it can be damaging to individuals and to firms leading to mental and physical sickness lack of morale or a desire to take on additional responsibility and worse The problem is widespread According to a Law Society survey 95% of lawyers have some negative stress in their jobs and 17% say that this is extreme Lawyers feel overloaded with work unappreciated isolated and unsupported many complain of unattainable targets poor pay and long hours And while many firms say they have programmes in place that are geared towards improving the wellbeing of staff 66% of lawyers say they would be concerned about reporting feelings of stress to their employer because of the stigma involved Nobody wishes to be seen as a weak link in the chain of a professional practice A solution won't be found overnight This book is designed to encourage lawyers and firms to think more about the question of stress how to recognise it in others and themselves and how to take action before it becomes excessive It is written for lawyers everywhere regardless of location or career level
