**Between Imitation and Innovation** Robert Boyer,Elsie Charron,Ulrich Jurgens,Steven Tolliday,1998-11-19 Recent years have seen intense debates among management and academics on the rise of lean production and Japanization Some authors have stressed the universal impact of new forms of work organization and best practice while others have questioned the limits of convergence stressed the weight of national contexts or societal effects or highlighted the evolutionary effects of unpredictability in the external environment The international automobile industry has been a focus for much of this debate and this book written by a team of leading international researchers in the field uses this industry to examine in detail the actual practice of the transfer and adaptation of productive models and the trajectories of innovation compromise and failure that can result Case studies cover in detail the Japanese transplant experience in North America and the global experience of hybrid production systems in Europe Latin America and Asia The book contributes to theoretical discussions about the transfer adaptation or convergence of productive models In particular the authors argue that direct transplantation or imitation of these models is rarely feasible or even desirable Systems cannot be transferred without being significantly reshaped Instead the book focuses on the process of hybridization the complex interaction of productive models with national and societal effects Hybridization it is argued is

inevitable But this should be seen not simply as a process of compromise and retreat but also as an important dynamic of innovation and learning This book is from the French based international research network GERPISA Groupe d tude de recherche permanent sur l industrie et les salaires de l automobile See related titles below

**International Developments Towards Improved Car-sharing Services** Bodo Schwiieger,2004 The main topic of this book is the introduction of a new mobility service One Way and Open End car sharing Dr Bodo Schwiieger describes a process starting from the anticipation and measurement of customer s needs to the introduction of innovative services The described field test is second to none as it offers gasoline vehicles in a One Way rental scheme within an urban environment 25 Smart vehicles were based at 8 stations and available to 4 000 car sharing customers This service is being analyzed for efficiency and customer reactions In a second step other car sharing companies in Hamburg Germany Seattle Washington Kyoto and Tokyo Japan are analyzed for their approaches to improving their services combines technological competence marketing know how and customer analysis Car sharing has recently become a highly relevant topic with the fast expansion of the American providers and the market entry of Deutsche Bahn AG and Shell AG in Germany The method respects the large amount of interdependence with other services and also the multiplicity of different customer groups Thus it can be transferred to other transportation services and used as a beginner s guide to service analysis The book is based on the author s dissertation which was accepted at the Technical University of Berlin in 2003 It delivers on 150 pages densely accumulated information It is worth reading for anyone who is involved in introducing and developing new services either within transportation or in related branches

Business Model Renewal: How to Grow and Prosper by Defying Best Practices and Reinventing Your Strategy Linda Gorchels,2012-03-23 Forget business as usual Don t believe everything you read about best practices There is no magic bullet When your market changes you have to change your strategy and take control of your own success You have to renew your business model In a global market that is constantly evolving you can t expect magic bullets or best practices or any stand alone business philosophy that many books and gurus offer to guide your company through good times and bad Instead you need to take an active role in reviewing and retooling your strategies You need to stop thinking business as usual You need Business Model Renewal a groundbreaking book that provides a language and multiple frameworks for how to think about and implement business model reinvention A full range guide to synthesizing and applying the most up to date thinking in business today Business Model Renewal challenges you to re evaluate your methods rethink your options and reignite your organization Constantly challenging the mindset of tried and true numbers based solutions such as market share financials and metrics Gorchels integrates both traditional concepts and cutting edge ideas to avoid the usual one size fits all approach that can stifle a company s growth You ll learn how to build a custom made business model that encompasses the totality of how your company produces value including design infrastructure culture operations and more You ll learn how to adapt to newest emerging technologies how to cope with the biggest market fluctuations how to serve the latest demographic shifts

and how to plan ahead for your company's future. Envisioning business model renewal efforts drives leaders and managers to deal with the ambiguity of future thinking. Shifts in technology, market needs, and competitive arenas can never be known precisely but must nevertheless be anticipated. Scenario planning and other group-based collaborative efforts to study the future are therefore necessary components of business model renewal. So too is corporate culture, decision making, business model portfolio design, and change management. That's why the frameworks in this book touch on all of these facets. Business Model Renewal won't give you seven proven steps, five key principles, or even 10 irrefutable laws. But it will challenge you to do the hard work of broadening the perspectives of your firm, the ecosystem in which it exists, the role of your personal leadership, and the followership within your corporate culture.
