Movie Analytics Dominique Haughton, Mark-David McLaughlin, Kevin Mentzer, Changan Zhang, 2015-10-05 Movies will never be the same after you learn how to analyze movie data including key data mining text mining and social network analytics concepts. These techniques may then be used in endless other contexts. In the movie application this topic opens a lively discussion on the current developments in big data from a data science perspective. This book is geared to applied researchers and practitioners and is meant to be practical. The reader will take a hands on approach running text mining and social network analyses with software packages covered in the book. These include R, SAS, Knime, Pajek and Gephi. The nitty gritty of how to build datasets needed for the various analyses will be discussed as well. This includes how to extract suitable Twitter data and create a co starring network from the IMDB database given memory constraints. The authors also guide the reader through an analysis of movie attendance data via a realistic dataset from France.

Handbook of State Aid for Film Paul Clemens Murschetz, Roland Teichmann, Matthias Karmasin, 2018-04-01 This book is an analysis of the specificities of public film funding on an international scale. It shows how public funding schemes add value to film making and other audio visual productions and provides a comprehensive analysis of today's global challenges in the film industry such as industry change, digital transformation and shifting audience tastes. Based on insights from fields such as cultural economics, media economics, media management and media governance studies, the authors illustrate how public spending shapes the financial fitness of national and international film industries. This highly informative book will help both scholars and practitioners in the film industry to understand the complexity of issues and the requirements necessary to preserve the social benefits of film as an important cultural good.

Coolfarming Peter Gloor, 2010-07-14 Beekeepers understand the importance of a fertile nurturing ground and cross pollination. Likewise, author Peter Gloor teaches readers that those who want to gain a business advantage shouldn't spend their time chasing ideas but instead should nurture the cool ideas all around them to foster exciting new trends. In Coolfarming he reveals the proven four step process for farming cool new ideas and unleashing a swarm of creative output. Featuring real life examples from companies like Linux, Twilight, Procter, how to determine what cool means for one's target group, what makes something worthy of being the next big thing, how to turn creative dreams into real products by enlisting the help of a dedicated and passionate Collaborative Innovation Network (CIN) and how to carry new ideas over the tipping point and turn them into widespread phenomena. Those who want to stay ahead of the curve and ride a wave of profit need to learn how to find, develop and popularize the trends of tomorrow. Coolfarming moves individuals and organizations to crosspollinate creative ideas and resources that yield highly sought after results.
