Peter Norton's Complete Guide to Microsoft Office 2000 Peter Norton,Jill T. Freeze,Wayne S. Freeze,1999 Ready to use building blocks for integrated circuit design Why start coding from scratch when you can work from this library of pre tested routines created by an HDL expert There are plenty of introductory texts to describe the basics of Verilog but Verilog Designer s Library is the only book that offers real reusable routines that you can put to work right away Verilog Designer s Library organizes Verilog routines according to functionality making it easy to locate the material you need Each function is

described by a behavioral model to use for simulation followed by the RTL code you'll use to synthesize the gate level implementation. Extensive test code is included for each function to assist you with your own verification efforts. Coverage includes Essential Verilog coding techniques, Basic building blocks of successful routines, State machines and memories, Practical debugging guidelines. Although Verilog Designer's Library assumes a basic familiarity with Verilog structure and syntax, it does not require a background in programming. Beginners can work through the book in sequence to develop their skills while experienced Verilog users can go directly to the routines they need. Hardware designers, systems analysts, VARs, OEMs, software developers and system integrators will find it an ideal sourcebook on all aspects of Verilog development.

College Grad Job Hunter Brian D. Krueger, 1995 College students want the facts. They don't want to know how job hunting used to be done or how to get a job if you've been downsized. They want to know how to downplay a lack of work experience or the summer they spent flipping burgers, how to get references from professors, how to succeed at job fairs and how to negotiate a decent salary. This book is packed with over 200 different techniques and tactics, any one of which will make a significant impact on a job search. There are many new and fresh ideas that can be put into immediate action. No theory. No philosophy. Just down to earth information a college grad can use immediately in their job search.
