The Age of Surveillance Capitalism Shoshana Zuboff, 2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF THE YEAR ONE OF BARACK OBAMA S TOP BOOKS OF THE YEAR Shortlisted for The Orwell Prize 2020 Shortlisted for the FT Business Book of the Year Award 2019 Easily the most important book to be published this century I find it hard to take any young activist seriously who hasn t at least familiarised themselves with Zuboff s central ideas Zadie Smith The Guardian The challenges to humanity posed by the digital future the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control us

The heady optimism of the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in and what we decide now will shape the rest of the century. Our choices allow technology to enrich the few and impoverish the many or harness it and distribute its benefits. **The Age of Surveillance Capitalism** is a deeply reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves. **Electricity**, 1991

Nationally renowned real estate expert Dr. Gary Eldred provides complete answers to these and all your other questions concerning the purchase of a second home. In a simple and clear style, he fills you in on everything you need to know to develop a strategy to increase affordability. Research the market to find your best location. Choose a home that will quickly appreciate. Make the most of current tax saving techniques. Select the right homeowner's insurance. Rent to minimize risk and maximize profit. Create value through home improvements. Vacation free worldwide through home exchanges.

Toward a Human-friendly Assistive Environment Daqing Zhang, Mounir Mokhtari, 2004. Recent years have witnessed rapid advances in the enabling technologies such as wireless communication, smart sensors, actuators, robotics and smart devices/services. As the pervasive computing technologies become more and more mature, people in both academia and industry are thinking of how to deploy those technologies to enhance the quality of life for all the world citizens and maintain independent living for elderly and disabled people. With the goal of using assistive technology to help elderly and disabled people carry out daily living activities, socialize

and enjoy entertainment and leisure activities This publication focuses on smart home and health telematics and choosing again independent living for persons with disabilities and elderly people as the theme of the ICOST conference It has to be clarified that smart home techniques are not only limited to home environment but can also be deployed into other environments such as hospitals offices schools or even trainstations ICOST intends to provide a forum for researchers practitioners business leaders and policy makers to exchange ideas and experiences in the smart home and healthcare domain
