Challenges and Opportunities for Respiratory Syncytial Virus Vaccines Larry J. Anderson, Barney S. Graham, 2013-12-20

Although respiratory syncytial virus RSV has been a high priority for vaccine development for over 50 years now still no vaccine is available and none has yet demonstrated sufficient promise to move to licensure. The success of RSV immune prophylaxis and the availability of ever more powerful tools to study the immune response and pathogenesis of disease combined with the ability to construct a wide variety of vaccines using different vaccine platforms give us grounds to believe that an RSV vaccine is within reach. This book brings together in one source what is currently known about the virus its clinical and epidemiologic features the host response and pathogenesis of the disease vaccines vaccine platforms and treatment and animal and tissue culture models of RSV infection. It is designed to organize the critical information relevant to RSV vaccine development facilitate the assimilation of data and speed progress toward producing a safe and effective vaccine.

Securing Intellectual Property Information Information Security, 2008-12-09 Most employees are astounded at how easily and quickly their proprietary information can get out of their control. In a large number of cases theft of trade secrets often involves employees leaving a company to start their own business or work for a direct competitor. Nearly all books that address the topic of trade secrets have the spy vs spy perspective. The author approaches the topic from a practical business perspective and not simply creating paranoia for paranoia's sake. The material for this book comes from the author's extensive work experience as a computer forensics consultant and manager on numerous theft of trade secrets cases. No nonsense solutions to the most common intellectual property problems facing security managers computer security professionals corporate legal counsel and human resource managers. Sample agreements and forms that address specific business needs. Coverage of threats ranging from physical security lapses to hackers to social engineering.
