## Ai Tools Vs:

**Digital Transformation in Education and Artificial Intelligence Application** Daniel Vasić,Emil Brajković,2025-10-09 This book constitutes the proceedings of the Third International Conference on Digital Transformation in Education and Artificial Intelligence Applications MoStart 2025 held in Mostar Bosnia and Herzegovina during April 23 25 2025 The 19 full papers were presented in this volume were carefully reviewed and selected from 39 submissions They focus on advanced educational technology intelligent systems robotics in education security within Industry 4 0 frameworks the implementation of large language models in personalized learning environments and broader cross disciplinary applications of AI

**Frontier Research on Artificial Intelligence and Radiomics in Neurodegenerative Diseases** Shi-Nan Wu,Wencai Liu, Qi Zhang,Fuqing Zhou,2025-11-13 As the global population ages the prevalence of neurodegenerative diseases is rising posing significant challenges to healthcare systems Artificial intelligence AI and radiomics are emerging as powerful tools in this domain offering innovative methods for diagnosing monitoring and treating these conditions Radiomics enables the extraction of quantitative features from medical images while AI excels at analyzing large datasets and identifying patterns that might be imperceptible to the human eye The integration of these technologies particularly in neuroimaging holds the potential to revolutionize our understanding and management of neurodegenerative diseases The goal of this research is to address the complex challenges posed by neurodegenerative diseases through the application of AI and radiomics Specifically we aim to 1 Identify and validate novel imaging biomarkers for the early detection and monitoring of neurodegenerative disorders 2 Develop AI driven predictive models to assess disease progression and treatment outcomes enabling personalized healthcare approaches 3 Utilize machine learning and database mining techniques to analyze extensive health datasets uncovering new insights and correlations specific to neurodegenerative diseases 4 Evaluate the clinical utility of these technologies in enhancing diagnostic accuracy improving patient outcomes and optimizing healthcare resources

**Artificial Intelligence and Education in the Global South** Fernando Reimers,Zainab Azim,Maria-Renée Palomo,Callysta Thony,2025-12-10 This open access book examines the dynamic intersection of artificial intelligence and education in the Global South where resource constraints and demographic trends create unique challenges and opportunities Adopting a systems perspective it explores how AI can transform teaching curriculum assessment teacher professional development school leadership and system governance while addressing AI literacy improving the effectiveness of education and developing transferable skills The book highlights the risks of exacerbating existing inequalities if technology is not carefully integrated and stresses the importance of human centered locally adapted solutions The book examines whether AI is supporting innovation or the transformation of education systems and how it is addressing the principal most vexing challenges with respect to the areas examined Each chapter draws on an analysis of the potential of AI on evidence of its use and on evaluation on the implementation and effectiveness of applications Each chapter concludes with

main takeaways for policy and practice key ethical issues and questions that merit more research [The Role of Artificial Intelligence in the Tourism and Hospitality Sector](#) Maria Jesus Jerez-Jerez,Claudia Sevilla-Sevilla,Lidia Aguiar-Castillo,2025-06-05 This timely expert led book brings together the latest academic and practitioner insights on AI technology within the hospitality and tourism industries The disruptive nature of AI is captured in a logically structured and accessible way with global case studies covering the latest technological developments in AI via a wide range of detailed real world examples designed to help the reader understand how this complex subject area is applied in industry Topics covered include privacy concerns AI in hotels personalisation of the guest experience travel planning virtual assistants and recommendation systems sustainability blockchain AR VR IoT smart destinations and big data analytics amongst others

Chapters also include insights on governmental policies environmental sustainability social change and how these impact and interact with AI technologies within the context of tourism and hospitality This volume is of pivotal interest to students scholars and academics in the fields of tourism hospitality business management human geography social sciences and sustainability as well as those with an interest in AI technology more generally [Contemporary Issues in Early Childhood Education and Care](#) ,2025-02-05 Contemporary Issues in Early Childhood Education and Care delves into the dynamic landscape of early childhood education and critically addresses the intersection of theory and practice offering a range of theoretical frameworks and practical strategies to support the holistic development of children It explores a diverse array of topics including integrating artificial intelligence tools in preschool settings the development of metacognitive skills in young children and the role of participatory practices in fostering democratic engagement It also examines resilience building through innovative playground designs and the importance of inclusive approaches for refugee and immigrant populations

This book also presents entrepreneurial coaching as a framework for enhancing children s participation lifelong learning and values driven parenting from a Christian perspective Additionally the volume highlights the impact of the COVID 19 pandemic on young children s psychological well being emphasizing their heightened awareness and involvement in decision making processes Inclusive assessment methods supporting shy children in educational settings are explored and the benefits of slow pedagogy versus hurried schooling are examined Furthermore it investigates the role of statistical analysis in shaping early childhood education policies and practices This work underscores community support systems can mitigate stress and adversity and strengthen children s capacity to thrive in their communities At the same time play environments can nurture physiological and psychological resilience With a strong focus on equity pedagogical innovation and evidence based approaches this volume is an essential resource for educators researchers and policymakers to create inclusive equitable and supportive learning environments that foster lifelong learning trajectories [Impact of Emergent Technologies on Writing Centers and Pedagogy](#) Wang, Tingjia,2025-05-08 Emergent technologies reshape the landscape of writing centers and pedagogical practices in higher education From AI driven writing tools to collaborative platforms and

digital feedback systems these innovations transform how writing support is delivered accessed and understood Writing centers are no longer confined to physical spaces instead they evolve into hybrid or fully online environments that accommodate diverse learner needs and preferences Pedagogically instructors and tutors rethink traditional approaches integrating digital literacy multimodal composition and ethical engagement with technology into their curricula As a result emergent technologies enhance accessibility and efficiency while challenging educators to critically examine the role of technology in writing instruction and the student learning experience Impact of Emergent Technologies on Writing Centers and Pedagogy explores the impact of emergent technologies on writing centers and writing pedagogy in higher education worldwide It examines the themes concerns and challenges emerging from different writing centers and their culturally and linguistically diverse responses towards the latest transformations in writing pedagogy This book covers topics such as digital literacy policymaking and writing programs and is a useful resource for educators computer engineers academicians researchers and scientists

**Teaching Poetry in a Digital World** Stefani Boutelier, Sarah J. Donovan, 2025-04-30

Teaching Poetry in a Digital World supports English language arts ELA educators for grades 6 12 to incorporate digital literacy in their classrooms by teaching the reading and writing of poetry In an increasingly digital age educators must adapt to meet the changing needs and interests of their students by incorporating technology into the classroom This book introduces its audience to the e Poetry Framework This framework demonstrates how poetry might present itself in a literacy based unit with the benefit of a technology medium to share with the world Examples include teaching zip ode poetry incorporating haiku with the creation of GIFs and ethically discussing AI with nonet poems With adaptable lesson plans and assessments as well as educator examples the book will inspire teachers to create intentional student centered e Poetry units The book is aligned with ELA literacy standards International Society for Technology in Education ISTE educator standards and National Council of Teachers of English NCTE s position statement for integrating technology into ELA classrooms It is a key resource for secondary school educators teaching ELA creative writing and digital media
