Betting Odds In The Us Setup:

Introduction to Bayesian Econometrics Edward Greenberg, 2013 This textbook explains the basic ideas of subjective probability and shows how subjective probabilities must obey the usual rules of probability to ensure coherency It defines the likelihood function prior distributions and posterior distributions It explains how posterior distributions are the basis for inference and explores their basic properties Various methods of specifying prior distributions are considered with special emphasis on subject matter considerations and exchangeability The regression model is examined to show how analytical methods may fail in the derivation of marginal posterior distributions The remainder of the book is concerned with applications of the theory to important models that are used in economics political science biostatistics and other applied fields New to the second edition is a chapter on semiparametric regression and new sections on the ordinal probit item response factor analysis ARCH GARCH and stochastic volatility models The new edition also emphasizes the R programming language

Algorithmic Probability and Friends. Bayesian Prediction and Artificial Intelligence David L. Dowe, 2013-10-22 Algorithmic probability and friends Proceedings of the Ray Solomonoff 85th memorial conference is a collection of original work and surveys The Solomonoff 85th memorial conference was held at Monash University's Clayton campus in Melbourne Australia as a tribute to pioneer Ray Solomonoff 1926-2009 honouring his various pioneering works most particularly his revolutionary insight in the early 1960s that the universality of Universal Turing Machines UTMs could be used for universal Bayesian prediction and artificial intelligence machine learning This work continues to increasingly influence and underpin statistics econometrics machine learning data mining inductive inference search algorithms data compression theories of general intelligence and philosophy of science and applications of these areas Ray not only envisioned this as the path to genuine artificial intelligence but also still in the 1960s anticipated stages of progress in machine intelligence which would ultimately lead to machines surpassing human intelligence Ray warned of the need to anticipate and discuss the potential consequences and dangers sooner rather than later Possibly foremostly Ray Solomonoff was a fine happy frugal and adventurous human being of gentle resolve who managed to fund himself while electing to conduct so much of his paradigm changing research outside of the university system The volume contains 35 papers pertaining to the abovementioned topics in tribute to Ray Solomonoff and his legacy
