

OCR A-level Physics Notes (New Spec)

Hello, I completed my a-levels of Biology, Physics, Maths and Further Maths in June 2019 and achieved 4A*. Here is a compilation of the notes I created and used during my revision for my OCR A-level Physics exams. I cannot guarantee these notes contain everything in the spec and are 100% accurate.

I decided not to sell my notes because I think education shouldn't be discriminative. I remember how anxious it made me hearing the other students discuss how fantastic their private tutors/paid for resources, meanwhile myself and others couldn't afford the same.

If you'd like to say thank you and support the creator:

Thank you and I wish you all the best in your exams! :)

My Advice for OCR A-level physics:

- 1) Do as many past paper questions as possible
- 2) Make sure that you're actively marking your work- write in-depth annotations and notes detailing what the mark scheme is actually looking for.
- 3) Consistently revisit topics that you struggled with at the time, to ensure that you don't lose the understanding.
- 4) Don't be afraid to ask your teachers for help! It's what they're there for!
- 5) Never forget your units in exam questions!
- 6) Past paper mark schemes can be quite repetitive, so learn the basic framework of what a 'wordy' question wants.
- 7) It's usually a mark per point in 'wordy' questions, so don't make 1 point for a 2 mark question
- 8) Always check the keyword for the question: explain, describe, state, analyse (*Kowalski analysis!*)
